NEVADA CAREER & TECHNICAL EDUCATION COURSE CATALOG SCHOOL YEAR 2014-2015

This document was prepared by:

Office of Career, Technical, and Adult Education
Nevada Department of Education
755 N. Roop Street, Suite 201
Carson City, NV 89701

Presented to the State Board of Education /
State Board for Career and Technical Education on
February 26, 2014

NEVADA STATE BOARD OF EDUCATION
NEVADA STATE BOARD FOR CAREER AND TECHNICAL EDUCATION

CTE MISSION STATEMENT:

The Office of Career, Technical, and Adult Education is dedicated to developing innovative educational opportunities for students to acquire skills for productive employment and lifelong learning.

NEVADA DEPARTMENT OF EDUCATION

Compiled and Organized by:
Alex Kyser, Education Programs Professional
Office of Career, Technical, and Adult Education

TABLE OF CONTENTS

INTRODUCTION

PURPOSE

The purpose of the statewide course catalog for career and technical education (CTE) is to provide a resource that consolidates all CTE secondary education courses in Nevada. This catalog shall be used as the sole resource for school districts to determine courses and course sequences for all high schools. This catalog is considered a dynamic resource where new courses may be added through the application process approved by the Department of Education to ensure the following thresholds are met:

- The CTE course and course sequence teaches the knowledge and skills required by industry through applied learning methodology and, where appropriate, work-based learning experiences that prepare students for careers in high-wage, high-skill and/or high-demand fields. Regional and state economic development priorities shall play an important role in determining program approval. Some courses also provide instruction focused on personal development.
- The CTE course and course sequence includes leadership and employability skills as an integral part of the curriculum.
- The CTE course and course sequence are part of a rigorous program of study and include sufficient technical challenge to meet state and/or industry-standards.

CATALOG ORGANIZATION

Courses are organized into the following program areas: (1) Agriculture and Natural Resources; (2) Business and Marketing Education; (3) Health Sciences and Public Safety; (4) Hospitality, Human Services and Education; (5) Information and Media Technologies; and (6) Skilled and Technical Sciences. Courses within each program area are further aligned to their appropriate career cluster. Each program area section includes the following elements: (1) Program Course Sequences; and (2) Program Course Listings.

PROGRAM COURSE SEQUENCES

The course sequencing provided in this section serves as a guide to schools to develop programs of study. Completion of the program core sequence is essential for the successful delivery of the state standards in each program.

The sequencing tables are divided into their appropriate career clusters. Within each career cluster, programs are listed alphabetically. Each program identifies: (1) Core Sequence; (2) Complementary Course(s); and (3) State Skill Standards. An example for Animation is shown below.

PROGRAM NAME	COURSE SEQUENCE	STATE SKILL STANDARDS*
Animation	**Core Course Sequence** Animation I Animation II Animation III **Complementary Course(s)** Animation II LAB ** Animation III LAB ** Animation Advanced Studies	Animation *TBD*

The **core course sequence** identifies the courses listed in sequential order required for the complete delivery of the state standards for that program.

C**omplementary courses** are those courses that directly support additional time and instruction of the state standards, or may align to the student's program of study. Complementary courses are considered additional courses and do not count towards a student's progression to a "Completer" status and are not to be used in lieu of the courses in the core sequence for program completion. The use of complementary courses must follow the sequence allowance rules listed in the following table.

SEQUENCING ALLOWANCES FOR COMPLEMENTARY COURSES
Complementary courses may be added to a student's program of study if all of the following are met: • enrollment in a complementary course should not impede the completion of a core course sequence • the course relates to the student's program of study • the student's schedule allows for additional courses • the course is an approved course in the Nevada CTE Course Catalog • prerequisites of the course must be followed

The **state standards** column identifies the CTE state standards developed for the course sequence. CTE state standards are or will be developed for all programs, and will be revised and updated as needed or according to a pre-determined schedule. (The CTE state standards labeled with "*TBD*" indicates "To Be Developed".) The Employability Skills for Career Readiness Standards must be an integrated component of all CTE course sequences. Technical assessments will be implemented for those programs with current industry validated standards.

COURSE LISTINGS

The course listings are organized alphabetically within each program area's career cluster and include the following elements: (1) Course Title; (2) Abbreviated Name; (3) Credits; (4) Course Level; (5) Classification of Instructional Program Code (CIP Code); (6) Prerequisites; and (7) Course Description. An example for a Business Management course is shown below.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Business Management I	**BUS MGMT I**	**1**	**L2**	**52.0201**
Prerequisite: Principles of Business and Marketing This course is a continuation of the Business Management program. The course addresses several types of management, including customer relationship management, human resources management, information management, knowledge management, project management, quality management, risk management, and strategic management. Economics, finance, operations, and professional development are also emphasized throughout the course. The appropriate use of technology and industry-standard equipment is an integral part of this course.				

The **course titles**, **abbreviated names**, **levels**, and **CIP codes** are to be used locally exactly as written in this catalog. This is especially important since it is those titles, abbreviations, levels, and CIP codes that will populate the System for Accountability Information in Nevada (SAIN). Through accurate use of the titles, abbreviated names, levels, and CIP codes, the CTE data reporting will be equally consistent and accurate. Furthermore, the data system will not accept course names, abbreviations, levels, and CIP codes that are inconsistent with those in this catalog.

CTE is largely defined by courses that meet the description above and are one (1) **credit** in length. Exceptions to one credit courses are permitted for national program curriculum designs, such as those required by the National Academy Foundation, High Schools of Business, and others.

The **course level** determines the order in which courses will be taught. In a designated sequence, for example, a level 2 course (L2) is taught after the level 1 course (L1) in the same sequence. The CTE

program should follow the sequence in order for the student to complete all state standards and be prepared for the end-of-program technical assessment. The end-of-program technical assessment will be administered in the completion course (L2C, L3C, or L4C) for those programs for which assessments have been developed. The following table describes each level.

LEVEL	DESCRIPTION
L1	Introductory level 1 course
L1L	Introductory level 1 course lab * (concurrent enrollment in L1 required)
L2	Intermediate level 2 course
L2L	Intermediate level 2 course lab * (concurrent enrollment in L2 or L2C required)
L2C	Completion level 2 course per state standards (CTE assessments given)
L3	Advanced level 3 course
L3L	Advanced level 3 course lab * (concurrent enrollment in L3 or L3C required)
L3C	Completion level 3 course per state standards (CTE assessments given)
L4C	Completion level 4 course per state standards (CTE assessments given)
L4L	Completion level 4 course lab * (concurrent enrollment in L4C required)
AS	Advanced Studies level course ** (above and beyond the state standards)
WK	Work Experience ***

* Lab courses are to be taught concurrently with the associated level course (i.e., level two course with the level two lab course) – see individual course descriptions for requirements and prerequisites.

** Advanced Studies courses allow students to continue taking courses beyond the completion level courses and are repeatable.

*** Work Experience courses must follow NAC 389.562, 389.564, and 389.566 regulations.

Lastly, a course description is provided for each course. The descriptions are fairly general and are intended to be used by school districts and schools for their annual catalogs, registration materials, etc. The description may be enhanced or modified as desired at the local level.

CTE ASSESSMENTS

There are two types of CTE assessments: (1) Workplace Readiness Skills Assessment, which measures the employability skills (soft skills) needed to be successful in all careers; and (2) end-of-program technical assessments, which are program specific and measure the skill attainment of a student who has completed a program course sequence. These assessments are web-based and aligned to the program specific state standards. Both CTE assessments are required by the Nevada Administrative Code. (NAC 389.800)

CAREER AND TECHNICAL STUDENT ORGANIZATIONS (CTSOS)

To further the development of leadership and technical skills, students have opportunities to participate in one or more Career and Technical Student Organizations (CTSOs). CTSOs develop character, citizenship, and the technical, leadership and teamwork skills essential for the workforce and their further education. Their activities are considered a part of the instructional day when they are directly related to the competencies and objectives in the course. The six approved CTSOs are shown below:

▪ DECA ▪ FBLA ▪ FCCLA ▪ FFA ▪ HOSA ▪ SkillsUSA

CATALOG UPDATES AND REVISIONS

The CTE Course Catalog will be updated and presented to the State Board of Education/State Board for Career and Technical Education on an annual basis. Courses and course sequences may be added to this catalog only through the application process approved by the Department of Education.

COURSE DESCRIPTIONS

AGRICULTURE, FOOD & NATURAL RESOURCES

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Agriculture Business	**AG BUSINESS**	**1**	**L3C**	**01.0102**

Prerequisite: Agriculture Science II

This course is a continuation of Agriculture Science II. This course provides advanced agriculture students with the information and skills necessary for success in agribusiness and in operating entrepreneurial ventures in the agricultural industry. These courses may cover topics such as economic principles, business planning and human resources, risk management, financial concepts, marketing, and sales strategies. Other possible topics include developing a business plan, employee/employer relations, problem-solving and decision making, commodities, and building leadership skills. These courses may also incorporate a survey of the careers within the agricultural industry. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Agriculture Business Advanced Studies	**AG BUSINESS AS**	**1**	**AS**	**01.0102**

Prerequisite: Agriculture Business

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Agriculture Leadership Communication and Policy	**AG LEADERSHIP**	**1**	**L3C**	**01.0899**

Prerequisite: Agriculture Science II

This course is a continuation of Agriculture Science II. This program provides advanced agriculture students with instruction on leadership and communication skills with a focus on opportunities in the agriculture industries. Topics will include personal leadership development, group leadership skills, research methodology, verbal and written communications, journalism, agriculture public policy and human relations. Other topics may include problem solving and decision making and teamwork skills. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Agriculture LCP Advanced Studies	**AG LEADERSHIP AS**	**1**	**AS**	**01.0899**

Prerequisite: Agriculture Leadership, Communication and Policy

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Agriculture Mechanical Engineering Technology I	**AG MET I**	**1**	**L1**	**01.0201**

Prerequisite: None

This course will introduce students into the foundation skills necessary for agriculture mechanics and industry employment. Areas of study may include general shop safety, basic welding, electrical applications, water management, agricultural drafting and construction, engines and power, and machinery maintenance and repair. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Agriculture Mechanical Engineering Technology II	**AG MET II**	**1**	**L2**	**01.0201**

Prerequisite: Agriculture Mechanical Engineering Technology I

This course is a continuation of Agriculture Mechanical Engineering Technology I. It allows intermediate agriculture students to expand on skills and knowledge from Agriculture Mechanical Engineering Technology I. Areas of study may include general shop safety, basic welding, electrical applications, water management, agricultural drafting and construction, engines and power, and machinery maintenance and repair. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
AG MET Equipment Fabrication Systems	**AG MET EQUIP FAB**	**1**	**L3C**	**01.0205**

Prerequisite: Agriculture Mechanical Engineering Technology II

This course is a continuation of Agriculture Mechanical Engineering Technology II. This course provides advanced agriculture students with instructions in advanced techniques and processes such as electrical controls and maintenance, GMAW, GTAW, and plasma cutting, with an emphasis in equipment fabrication. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
AG MET Power Systems	**AG MET POWER SYS**	**1**	**L3C**	**01.0204**

Prerequisite: Agriculture Mechanical Engineering Technology II

This course is a continuation of Agriculture Mechanical Engineering Technology II. This course provides advanced agriculture students with instruction in advanced techniques and processes with an emphasis in ag machinery operation and repair, hydraulics, and electrical power, motor and control systems. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
AG MET Structural Systems	**AG MET STRUCTURE**	**1**	**L3C**	**01.0299**

Prerequisite: Agriculture Mechanical Engineering Technology II

This course is a continuation of Agriculture Mechanical Engineering Technology II. This course provides advanced agriculture students with instructions in advanced techniques and processes with an emphasis in agricultural construction. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
AG MET Advanced Studies	**AG MET AS**	**1**	**AS**	**01.0201**

Prerequisite: AG MET Equipment Fabrication Systems or AG MET Power Systems or AG MET Structural Systems

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Agriculture Science I	**AG SCIENCE I**	**1**	**L1**	**01.0000**

Prerequisite: None

This course is an introduction and survey course of the many career areas in agriculture. Topics include scientific investigations in agriculture, basic animal science, basic plant and soil science, ornamental horticulture, natural resource management, business management, leadership and communication through FFA, and career skills. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Agriculture Science II	**AG SCIENCE II**	**1**	**L2**	**01.0000**

Prerequisite: Agriculture Science I

This course is a continuation of Agriculture Science I. This course allows intermediate students to expand on skills and knowledge from Agriculture Science I. Areas of study include scientific investigations in agriculture, plant and soil sciences, agriculture sales and marketing, ornamental horticulture, animal sciences and natural resource management. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Animal Science	**ANIMAL SCI**	**1**	**L3C**	**01.0901**

Prerequisite: Agriculture Science II

This course is a continuation of Agriculture Science II. This course allows advanced students to expand on skills and knowledge from Agriculture Science II while exploring the livestock and red meat industry. This course covers the basic anatomy and physiology of domestic animals, genetics, reproduction, animal health and welfare, evaluation and selection of animals, land stewardship and marketing. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Animal Science Advanced Studies	**ANIMAL SCI AS**	**1**	**AS**	**01.0901**

Prerequisite: Animal Science

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Environmental Management I	**ENVIRON MGMT I**	**1**	**L1**	**03.0101**

Prerequisite: None

This course is an introduction to environmental management. Areas of study include ecological concepts and scientific principles related to environmental science, scientific investigation, soils, sustainable use including composting, recycling and hydroponics, and environmental issues. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Environmental Management II	**ENVIRON MGMT II**	**1**	**L2**	**03.0101**

Prerequisite: Environmental Management I

This course is a continuation of Environmental Management I. This course will provide intermediate students with instruction in advanced techniques and processes. The students will continue to develop all skills learned in Environmental Management I. Areas of study include population ecology, air and water quality, soils, mineral extraction, environmental site management, conventional and renewable energy resources, and career exploration. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Environmental Management III	**ENVIRON MGMT III**	**1**	**L3C**	**03.0101**

Prerequisite: Environmental Management II

This course is a continuation of Environmental Management II. This course will provide advanced students with instruction in environmental site management, law and public policy, GPS and GIS, and hydrology and hydrogeology. The students will continue to develop all skills learned in Environmental Management I and II. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Environmental Management Advanced Studies	**ENVIRON MGMT AS**	**1**	**AS**	**03.0101**

Prerequisite: Environmental Management III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Equine Science	**EQUINE SCI**	**1**	**L3C**	**01.0507**

Prerequisite: Agriculture Science II

This course is a continuation of Agriculture Science II. This course allows advanced agriculture students to focus on the care and management of horses. Animal nutrition, health, behavior, reproduction and breeding, anatomy and physiology, facilities, handling and training, and grooming are typical areas of study. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Equine Science Advanced Studies	**EQUINE SCI AS**	**1**	**AS**	**01.0507**

Prerequisite: Equine Science

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Floriculture	**FLORAL**	**1**	**L3C**	**01.0608**

Prerequisite: Plant Science and Ornamental Horticulture

This course is a continuation of Ornamental Horticulture. This course is the study of the science, business and design principles of floriculture. Areas of study include the history of floral design, the use of color, tools and principles of design in floral arrangements, plant identification, care and processing of cut flowers, marketing and sales, record keeping and floral business management. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Floriculture Advanced Studies	**FLORAL AS**	**1**	**AS**	**01.0608**

Prerequisite: Floriculture

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Greenhouse Management	**GREENHOUSE MGMT**	**1**	**L3C**	**01.0604**

Prerequisite: Plant Science and Ornamental Horticulture

This course is a continuation of Ornamental Horticulture. This course provides advanced agriculture students a technical understanding and working knowledge of the greenhouse industry. Topics include safety, plant physiology, growing media, plant nutrition, integrated pest management, propagation, growing greenhouse crops and greenhouse business concepts. Students will gain knowledge and skills related to the care and management of gardens and greenhouses. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Greenhouse Management Advanced Studies	**GREENHOUSE MGMT AS**	**1**	**AS**	**01.0604**

Prerequisite: Greenhouse Management

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Horticulture Science	**HORTICULTURE SCI**	**1**	**L1**	**01.1103**

Prerequisite: None

This course is an introductory course into the horticulture industry. Areas of study include scientific investigations in horticulture, basic plant processes and anatomy, soils, plant propagation, plant growth requirements, cultivation practices, business management, horticulture and environment, and leadership and career skills. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Landscaping I	**LANDSCAPE I**	**1**	**L2**	**01.0605**

Prerequisite: Agriculture Science I or Horticulture Science

This course is a continuation of Ag Science I or Horticulture Science I. This course is designed to provide students with instruction in many aspects of the landscape industry, including safety, plant identification, analyzing the landscape site, designing the landscape, selecting plants for the design, hardscaping, turf installation and management, pruning, and integrated pest management. The use of technology is an integral part of this course. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Landscaping II	**LANDSCAPE II**	**1**	**L3C**	**01.0605**

Prerequisite: Landscaping I

This course is a continuation of Landscaping I. This course is designed to provide students with advanced instruction in landscaping including: applying the principles and elements of design, selecting plant materials, hardscaping, irrigation, installation techniques and integrated pest management. The use of technology is an integral part of this course. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Landscaping Advanced Studies	**LANDSCAPE AS**	**1**	**AS**	**01.0605**

Prerequisite: Landscaping II

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Natural Resources and Wildlife Management	**NAT RES MGMT**	**1**	**L3C**	**03.0601**

Prerequisite: Agriculture Science II

This course is a continuation of Agriculture Science II. This course introduces advanced agriculture students to concepts of natural resource science and management. This will include ecological concepts and scientific principles, rangeland management, fire ecology, GPS and GIS, fish and wild ecology, forestry, renewable and nonrenewable resources, and fish and wildlife management. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Natural Resources and Wildlife Management Advanced Studies	**NAT RES MGMT AS**	**1**	**AS**	**03.0601**

Prerequisite: Natural Resources and Wildlife Management

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Plant Science and Ornamental Horticulture	**PLANT SCI HORT**	**1**	**L2**	**01.0603**

Prerequisite: Agriculture Science I or Horticulture Science

This course is a continuation of Agriculture Science I or Horticulture Science. This course is designed to introduce the intermediate agriculture student to the skills and knowledge needed in order to successfully grow and care for plants. Areas emphasized include: plant anatomy and physiology, plant identification, propagation, growing media, nutrition, and plant technologies. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Veterinary Science I	**VETERINARY SCI I**	**1**	**L1**	**51.0808**

Prerequisite: None

This course is an exploration of veterinary medicine industry. It is designed to introduce agriculture students to career paths in veterinary settings and acquire a basic knowledge of the veterinary industry. Topics to be covered include basic anatomy and physiology, animal health and nutrition, and animal care. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Veterinary Science II	**VETERINARY SCI II**	**1**	**L2**	**51.0808**

Prerequisite: Veterinary Science I

This course is a continuation of Veterinary Science I. This course is designed to continue the development of skills necessary in the veterinary medicine field. Topics to be covered may include practices and procedures in the veterinary clinical setting. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Veterinary Science III	**VETERINARY SCI III**	**1**	**L3C**	**51.0808**

Prerequisite: Agriculture Science II or Veterinary Science II

This course is a continuation of Agriculture Science II and Veterinary Science II. This course is designed to introduce advanced agriculture students to the technical understanding and working knowledge of the veterinary industry. Topics to be covered include practices in the veterinary clinical setting, medical terminology, medical math, clinical examination, laboratory techniques, diseases and disorders, nutrition, clinical and office procedures, and ethical and welfare issues. An essential part of this course will be leadership activities and Supervised Agriculture Experience Programs. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Veterinary Science Advanced Studies	**VETERINARY SCI AS**	**1**	**AS**	**51.0808**

Prerequisite: Veterinary Science III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Agriculture Food and Natural Resources	**WORK EXPER AFNR**	**1**	**WK**	**99.0001**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

COURSE DESCRIPTIONS

BUSINESS, MANAGEMENT & ADMINISTRATION

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Business Management I	**BUS MGMT I**	**1**	**L2**	**52.0201**

Prerequisite: Principles of Business and Marketing

This course is a continuation of the Business Management program. The course addresses several types of management, including customer relationship management, human resources management, information management, knowledge management, project management, quality management, risk management, and strategic management. Economics, finance, operations, and professional development are also emphasized throughout the course. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Business Management II	**BUS MGMT II**	**1**	**L3C**	**52.0201**

Prerequisite: Business Management I

This course is a continuation of the Business Management program and focuses predominantly on financial analysis that supports economic decision-making in business. It includes specialist- and management-level skills such as interpreting financial statements; calculating financial ratios; developing budgets; forecasting sales; and much more. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Business Management Advanced Studies	**BUS MGMT AS**	**1**	**AS**	**52.0201**

Prerequisite: Business Management II

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Business Software Applications	**BUS SOFT APPS**	**1**	**L1**	**52.0407**

Prerequisite: None

This course is for entry-level students in Administrative Services. This program prepares students for jobs in an office or business setting in the area of administrative support and office management. This course emphasizes skills in standard industry software. Students will gain proficiency of advanced web functions, word-processing applications, spreadsheet applications, presentation applications and database applications as they are used in a business environment. Student will understand and abide by policies for technology.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
HSB-Business Economics	**HSB BUS ECONOMICS**	**.5**	**L1**	**52.0601**

Prerequisite: HSB-Principles of Business

Schools must be affiliated with the High Schools of Business™ program to offer this course

In Business Economics, a project-based business course, students expand their understanding that businesses are influenced by external factors that are often beyond their control. Consumer spending, government policies, economic conditions, legal issues, and global competition are addressed through practical, current applications to everyday societal and business life. Decision matrices are introduced, and the importance and costs of quality are stressed. Students develop their knowledge and skills in such areas as economics, entrepreneurship, operations, and professional development. Throughout the course, students will be presented with current economic problems for which they are asked to determine solutions, often through the application of decision matrices

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
HSB-Business Strategies	**HSB BUS STRATEGY**	**.5**	**L3C**	**52.0299**

Prerequisite: HSB-Principles of Management

Schools must be affiliated with the High Schools of Business™ program to offer this course*

Business Strategies serves as the capstone course for the High School of Business™ program. Students employ their decision matrices to finalize marketing, financial, and management plans developed previously, incorporating them into a business plan for a non-profit organization. The non-profit venture is actualized during the course, requiring students to engage in risk assessment, strategic planning, and performance assessment.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
HSB-Leadership	**HSB LEADERSHIP**	**.5**	**L1**	**52.0213**

Prerequisite: None

Schools must be affiliated with the High Schools of Business™ program to offer this course*

Leadership, a project-based leadership course, develops student understanding and skills in such areas as communication skills, emotional intelligence, operations, and professional development. Students acquire an understanding and appreciation of the need for leadership skills. To encourage immediate implementation of leadership skills, Leadership utilizes an on-going service-learning project for course delivery and reinforcement. The course content is sequenced for students to identify, plan, implement, and evaluate a service-learning project based on the needs of their community/school. Throughout the course, students are presented problem-solving situations for which they must apply academic and critical-thinking skills. Formal reflection is an on-going component of the course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
HSB-Principles of Business	**HSB PRIN BUSINESS**	**.5**	**L1**	**52.0101**

Prerequisite: None

Schools must be affiliated with the High Schools of Business™ program to offer this course*

Principles of Business, a project-based business course, develops student understanding and skills in such areas as business law, economics, financial analysis, human resources management, information management, marketing, operations, and strategic management. Through the use of three projects, students acquire an understanding and appreciation of the business world. They develop a business analysis report, conduct an environmental scan of the local business community, and investigate business activities. Current technology will be used to acquire information and to complete the projects. Throughout the course, students are presented problem-solving situations for which they must apply academic and critical-thinking skills. Formal reflection is an on-going component of the course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
HSB-Principles of Finance	**HSB PRIN FINANCE**	**.5**	**L2**	**52.0801**

Prerequisite: HSB-Principles of Marketing

Schools must be affiliated with the High Schools of Business™ program to offer this course*

Principles of Finance furthers student understanding of two specific business activities—accounting and finance—that were introduced in an earlier High School of Business course, Principles of Business. Through multiple projects, students make connections between accounting, with an emphasis on cash flow, and finance, with an emphasis on decision-making. Students acquire an understanding of financial statements, calculate financial ratios, and make business decisions based on their interpretation of those financial statements and ratios. In addition, students determine business-financing options, as well as develop an appreciation for types of financial service providers and financial markets. Decision matrices are employed to aid in financial planning.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
HSB-Principles of Management	**HSB PRIN MGMT**	**.5**	**L3**	**52.0201**

Prerequisite: HSB- Principles of Finance

Schools must be affiliated with the High Schools of Business™ program to offer this course*

Principles of Management is a project-based business course that expands student understanding of management. Students acquire an appreciation for aspects of management, such as project management, human resources management, knowledge management, quality management, and risk management. In addition, ethical and legal considerations affecting business activities are stressed, and students develop managerial and supervisory skills through interaction with lower grade-level High School of Business™ students. Decision matrices are employed to aid in management planning.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
HSB-Principles of Marketing	**HSB PRIN MKTG**	**.5**	**L2**	**52.1401**

Prerequisite: HSB-Business Economics

Schools must be affiliated with the High Schools of Business™ program to offer this course*

Principles of Marketing is a project-based business course that develops student understanding and skills in the functional areas of marketing: channel management, marketing-information management, market planning, pricing, product/service management, promotion, and selling. Students acquire an understanding and appreciation of each of the marketing functions and their ethical and legal issues. Decision matrices are employed to aid in market planning.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
HSB-Wealth Management	**HSB WEALTH MGMT**	**.5**	**L1**	**52.0804**

Prerequisite: None

Schools must be affiliated with the High Schools of Business™ program to offer this course*

This project-based financial literacy and investment course develops student understanding and skills in such areas as personal finance, types of investment, the stock market, and stock valuation. Students acquire an understanding and appreciation of the need for personal financial management and investing. To encourage immediate implementation of financial literacy and investment skills, Wealth Management utilizes an on-going investment project for course delivery and reinforcement. The course content is sequenced for students to develop a diversified, balanced investment portfolio based both on their interest in products and companies and on fundamental analysis. Throughout the course, students are presented problem-solving situations for which they must apply academic and critical-thinking skills.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Office Management I	**OFFICE MGMT I**	**1**	**L2**	**52.0204**

Prerequisite: Business Software Applications

This course is a continuation of the Administrative Services programs. Students will learn occupational skills in accounting such as recording business transactions, posting journal and ledger entries, and preparing financial statements. Students will be introduced to standard accounting software and expand their knowledge of standard office software. Additionally, an introduction to laws related to business practices, organizational structures and interpersonal office skills will be covered. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Office Management II	**OFFICE MGMT II**	**1**	**L3C**	**52.0204**

Prerequisite: Office Management I

This course is a continuation of the Administrative Services program and prepares students for work in an office or business environment. Students will learn and apply advanced skills in office technology and software commonly used in today's work environment. This course also includes the understanding of employment law and supervision. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Office Management Advanced Studies	**OFFICE MGMT AS**	**1**	**AS**	**52.0204**

Prerequisite: Office Management II

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Business Management and Administration	**WORK EXPER BUS ADM**	**1**	**WK**	**99.0004**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

FINANCE

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Accounting and Finance I	**ACCT FINANCE I**	**1**	**L1**	**52.0304**

Prerequisite: None

This course is an introduction to both accounting and finance. This course is an introduction to accounting processes, practices, and concepts as well as an introduction to the world of finance. Topics include debits and credits, career pathways, and a survey of the many industries associated with accounting and finance such as accounting, banking, insurance and investments. Students will be introduced to standard accounting software.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Accounting and Finance II	**ACCT FINANCE II**	**1**	**L2**	**52.0304**

Prerequisite: Accounting and Finance I

This course is a continuation of Accounting and Finance I. Students will learn occupational skills in accounting such as recording business transactions, preparing financial statements, maintaining cash controls and calculating financial ratios. Students will practice using standard accounting software and apply generally accepted accounting principles. Topics will also include regulations related to the banking and finance industries, how managers use financial information generated by accounting departments to influence decision-making. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Accounting and Finance III	**ACCT FINANCE III**	**1**	**L3C**	**52.0304**

Prerequisite: Accounting and Finance II

This course is a continuation of Accounting and Finance II. Students will learn advanced occupational skills in accounting and how they relate to reports used by managers and directors. Students will learn the importance of accounting data in making decisions through an understanding of financial reports such as profit and loss statements, cash flow statements and pro forma statements. Ethics and regulations will be a discussed throughout this course. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Accounting and Finance Advanced Studies	**ACCT FINANCE AS**	**1**	**AS**	**52.0304**

Prerequisite: Accounting and Finance III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Applied Finance	**NAF APPLIED FINC**	**.5**	**L3**	**52.0801**

Prerequisite: Must complete two or more Level 2 (L2) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Applied Finance delves into the financial concepts introduced in Principles of Finance. Students learn to identify the legal forms of business organization and continue to develop an understanding of profit. They learn about various financial analysis strategies and the methods by which businesses raise capital. Students also have the chance to explore, in depth, topics of high interest in the field of finance, and explore the types of careers that exist in finance today.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Business Economics	**NAF BUS ECON**	**.5**	**L1**	**52.0601**

Prerequisite: None

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Business Economics introduces students to the key concepts of economics as they pertain to business. This course discusses the American economy and the factors that influence the success of businesses and products. It describes forms of business ownership, discusses the relationship of labor and business, and provides a broad overview of the global economy. Students also examine careers in business, both as employees and as business owners.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Business in a Global Economy	**NAF BUS GLOB ECON**	**.5**	**L2**	**45.0605**

Prerequisite: Must complete one or more Level 1 (L1) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Business in a Global Economy provides students with an understanding of how and why businesses choose to expand their operations into other countries. This course exposes students to the unique challenges facing firms doing business internationally, and to the potential opportunities available to those businesses.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Entrepreneurship	**NAF ENTREPRENEUR**	**.5**	**L2**	**52.0701**

Prerequisite: Must complete one or more Level 1 (L1) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Entrepreneurship introduces students to the critical role entrepreneurs play in the national and global economy. Students learn the skills, attitudes, characteristics, and techniques necessary to become successful entrepreneurs. They explore starting a business and learn about the operational issues and financial risks that new businesses face. Students examine ethical issues and develop a framework for managing them.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Ethics in Business	**NAF ETHICS IN BUS**	**.5**	**L3**	**38.0104**

Prerequisite: Must complete two or more Level 2 (L2) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

This course introduces the importance of ethics in business. Students focus on the significance of ethics to stakeholders; examine who bears responsibility for monitoring ethics; and explore ethical situations common in organizations. Students examine how ethics affects various business disciplines and consider the impact of organizational culture. Students also explore ethics as social responsibility, the evolution of ethics in international business, and how the free market and ethics can coexist.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Financial Planning	**NAF FINC PLANNING**	**.5**	**L2**	**52.0804**

Prerequisite: Must complete one or more Level 1 (L1) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Financial Planning provides students with an overview of the job of a financial planner. Students learn to consider how all aspects of financial planning might affect a potential client, and learn about the importance of financial planning in helping people reach their life goals. This course includes lessons on saving, borrowing, credit, and all types of insurance, and covers various types of investments. Students also examine careers in financial planning.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Financial Services	**NAF FINC SERVICES**	**.5**	**L2**	**52.0803**

Prerequisite: Must complete one or more Level 1 (L1) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

This course gives students an overview of banks and other financial services companies. It introduces students to the origins of money and banking and examines the early history of banking in the United States. Students study the financial services industry and the types of companies it includes in depth. They learn about the services offered by such companies and analyze the ways these companies earn profits. Finally, students examine careers in financial services.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Insurance	**NAF INSURANCE**	**.5**	**L3C**	**52.1701**

Prerequisite: Must complete one or more Level 3 (L3) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

This course introduces students to the insurance industry and to its critical role in the financial services sector and in society. It covers common types of insurance, including life, health and disability, property, liability, and forms of commercial insurance. Students examine the business model underlying the industry and how underwriting, actuarial science, and investment practices affect an insurance company's financial success.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Managerial Accounting	**NAF MANAGE ACCT**	**.5**	**L2**	**52.0305**

Prerequisite: Must complete one or more Level 1 (L1) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Managerial Accounting introduces the fundamentals of management accounting, including manufacturing and cost accounting, budgeting, accounting for managerial decision-making, and financial statement analysis. Students learn how to use accounting information for internal decision-making and planning and control. Regardless of the career path they choose, this course gives students the financial acumen necessary to make informed personal and business decisions.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Principles of Accounting	**NAF PRIN ACCT**	**.5**	**L2**	**52.0301**

Prerequisite: Must complete one or more Level 1 (L1) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Principles of Accounting provides students with an understanding of the accounting process and how it facilitates decision making by providing data and information to internal and external stakeholders. Students learn that accounting is an integral part of all business activities. They learn how to apply technology to accounting by creating formulas and inputting data into spreadsheets.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Principles of Finance	**NAF PRIN FINC**	**.5**	**L1**	**52.0801**

Prerequisite: None

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

This is the first course students take in the Academy of Finance and introduces students to the financial world. Students develop financial literacy as they learn about the function of finance in society. They study income and wealth; examine financial institutions; learn how businesses raise capital; and study key investment-related terms and concepts. They also research how innovations have changed the financial services field. Finally, students explore careers that exist in finance today.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Finance	**WORK EXPER FINANCE**	**1**	**WK**	**99.0006**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

MARKETING, SALES & SERVICE

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Entrepreneurship I	**ENTREPRENEUR I**	**1**	**L2**	**52.0701**

Prerequisite: Principles of Business and Marketing

This course is a continuation of the Entrepreneurship program. Students will gain knowledge in the nature and scope of entrepreneurship, the impact of entrepreneurship on market economies, marketing functions and economic concepts related to entrepreneurship. Personal traits and behaviors of a successful entrepreneur are also examined. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Entrepreneurship II	**ENTREPRENEUR II**	**1**	**L3C**	**52.0701**

Prerequisite: Entrepreneurship I

This course is a continuation of the Entrepreneurship program. Students will expand their knowledge of the nature and scope of entrepreneurship, the impact of entrepreneurship on market economies, marketing functions and economic concepts related to entrepreneurship. Business plan development is the key tool by which students will learn concepts. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Entrepreneurship Advanced Studies	**ENTREPRENEUR AS**	**1**	**AS**	**52.0701**

Prerequisite: Entrepreneurship II

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Marketing I	**MKTG I**	**1**	**L2**	**52.1401**

Prerequisite: Principles of Business and Marketing

This course is a continuation of the Marketing and Entrepreneurship programs. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Principles of Business and Marketing	**PRIN BUS MKTG**	**1**	**L1**	**52.0101**

Prerequisite: None

This course is an entry-level course in the Business Management, Entrepreneurship, Marketing, and Sports & Entertainment Marketing programs that develops student understanding and skill in areas such as business law, communications, customer relations, economics, information management, marketing, and operations. Students acquire knowledge of fundamental business and marketing activities, factors affecting business, develop verbal and written communications skill, and participate in career exploration and planning.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Sports and Entertainment Marketing I	**SPORTS MKTG I**	**1**	**L2**	**52.1499**

Prerequisite: Principles of Business and Marketing

This course is a continuation of a Sports and Entertainment Marketing program. Students will advance their knowledge and skills in promotion, pricing, channel management, marketing-information management, market planning, market research, promotion, product management and professional selling as it relates to sports and entertainment. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Sports and Entertainment Marketing II	**SPORTS MKTG II**	**1**	**L3C**	**52.1499**

Prerequisite: Sports and Entertainment Marketing I

This course is a continuation of a Sports and Entertainment Marketing program. Students will advance their knowledge and skills in promotion, pricing, marketing-information management, market research, and development of the marketing plan as it relates to sports and entertainment industries. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Sports and Entertainment Marketing Advanced Studies	**SPORTS MKTG AS**	**1**	**AS**	**52.1499**

Prerequisite: Sports and Entertainment Marketing II

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Marketing Sales and Service	**WORK EXPER MARKET**	**1**	**WK**	**99.0014**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

COURSE DESCRIPTIONS

EDUCATION & TRAINING

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Early Childhood Education I	**EARLY CHILD I**	**1**	**L1**	**13.1210**

Prerequisite: None

This course provides students with an introduction to the principles of early childhood education. This course addresses child development, care, teaching and learning, so that students can guide the development of young children in an educational setting. Study typically includes planning and implementing developmentally appropriate activities, basic health and safety practices, and legal requirements for teaching young children. The appropriate use of technology and industry-standard equipment is an integral part of this course. Students will research the requirements of early childhood education careers and begin to develop a career portfolio.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Early Childhood Education II	**EARLY CHILD II**	**1**	**L2**	**13.1210**

Prerequisite: Early Childhood Education I

This course is a continuation of Early Childhood Education I. This course prepares intermediate early childhood education students to guide the development of young children in an educational setting. Course content includes child development, care, teaching and learning. Project-based learning experiences include planning and implementing developmentally appropriate activities, health and safety practices, and legal requirements of teaching young children. Students will expand their career portfolio. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Early Childhood Education II LAB	**EARLY CHILD II L**	**1**	**L2L**	**13.1210**

Prerequisite: Concurrent enrollment in Early Childhood Education II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in this program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Early Childhood Education III	**EARLY CHILD III**	**1**	**L3C**	**13.1210**

Prerequisite: Early Childhood Education II

This course is a continuation of Early Childhood Education II. This course provides advanced early childhood education students with instruction in advanced techniques and processes. Students will continue to develop all skills learned in Early Childhood Education I and II. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Early Childhood Education III LAB	**EARLY CHILD III L**	**1**	**L3L**	**13.1210**

Prerequisite: Concurrent enrollment in Early Childhood Education III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in this program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Early Childhood Education Advanced Studies	**EARLY CHILD AS**	**1**	**AS**	**13.1210**

Prerequisite: Early Childhood Education III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Education and Training	**WORK EXPER EDUC**	**1**	**WK**	**99.0005**

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

HOSPITALITY & TOURISM

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Baking and Pastry I	**BAKING I**	**1**	**L2**	**12.0501**

Prerequisite: Culinary Arts I

This course is an option following Culinary Arts I. This course allows culinary students more in-depth study of baking and pastry arts. Areas of study include baking terminology, tool and equipment use, formula conversions, functions of ingredients, and methods used in creating breads, pastries, cookies, and other desserts. The fundamentals of dough and basic decorating skills are covered. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Baking and Pastry I LAB	**BAKING I L**	**1**	**L2L**	**12.0501**

Prerequisite: Concurrent enrollment in Baking and Pastry I

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in this program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Baking and Pastry II	**BAKING II**	**1**	**L3C**	**12.0501**

Prerequisite: Baking and Pastry I

This course is a continuation of Baking and Pastry I. This course provides advanced baking students with instruction in advanced techniques and processes. They will continue to develop skills learned in Culinary Arts I and Baking and Pastry I. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Baking and Pastry II LAB	**BAKING II L**	**1**	**L3L**	**12.0501**

Prerequisite: Concurrent enrollment in Baking and Pastry II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in this program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Baking and Pastry Advanced Studies	**BAKING AS**	**1**	**AS**	**12.0501**

Prerequisite: Baking and Pastry II

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Culinary Arts I	**CUL ARTS I**	**1**	**L1**	**12.0503**

Prerequisite: None

This course provides students with an introduction to the principles and techniques of commercial food production. The classroom is patterned after industry with emphasis on the standards of food service occupations. Students acquire basic skills in food handling, food and nutritional science, equipment technology, cooking methods, kitchen safety, sanitation procedures, and employability skills.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Culinary Arts II	**CUL ARTS II**	**1**	**L2**	**12.0503**

Prerequisite: Culinary Arts I

This course is a continuation of Culinary Arts I. This course allows intermediate culinary students to build on fundamental skills developed in Culinary Arts I. Students will receive practical training in areas of food preparation, equipment use, and service. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Culinary Arts II LAB	**CUL ARTS II L**	**1**	**L2L**	**12.0503**

Prerequisite: Concurrent enrollment in Culinary Arts II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in this program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Culinary Arts III	**CUL ARTS III**	**1**	**L3C**	**12.0503**

Prerequisite: Culinary Arts II

This course is a continuation of Culinary Arts II. This course provides advanced culinary students with instruction in advanced techniques and processes. They will continue to develop all skills learned in Culinary Arts I and II. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Culinary Arts III LAB	**CUL ARTS III L**	**1**	**L3L**	**12.0503**

Prerequisite: Concurrent enrollment in Culinary Arts III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in this program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Culinary Arts Advanced Studies	**CUL ARTS AS**	**1**	**AS**	**12.0503**

Prerequisite: Culinary Arts III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Hospitality and Tourism I	**HOSPLTY TOUR I**	**1**	**L1**	**52.0901**

Prerequisite: None

This course provides students with an introduction to the hospitality and tourism industry students will acquire a basic understanding of the industry sectors: lodging, food and beverage, recreation, amusement and attractions, and sales, catering and convention services. Students also study business functions and the importance of guest service. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Hospitality and Tourism II	**HOSPLTY TOUR II**	**1**	**L2**	**52.0901**

Prerequisite: Hospitality and Tourism I

This course is a continuation of Hospitality and Tourism I. This course allows intermediate hospitality and tourism students to build on fundamental skills developed in hospitality and tourism I. Students will receive additional training in all aspects of hotel and tourism operations, including business functions and guest service. The appropriate use of technology and industry standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Hospitality and Tourism II LAB	**HOSPLTY TOUR II L**	**1**	**L2L**	**52.0901**

Prerequisite: Concurrent enrollment in Hospitality and Tourism II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Hospitality and Tourism III	**HOSPLTY TOUR III**	**1**	**L3C**	**52.0901**

Prerequisite: Hospitality and Tourism II

This course is a continuation of Hospitality and Tourism II. This course provides advanced hospitality and tourism students with instruction in more advanced concepts related to lodging, food and beverage, recreation, amusement and attractions, sales, catering and convention services as well as business functions and guest service. The appropriate use of technology and industry standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Hospitality and Tourism III LAB	**HOSPLTY TOUR III L**	**1**	**L3L**	**52.0901**

Prerequisite: Concurrent enrollment in Hospitality and Tourism III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Hospitality and Tourism Advanced Studies	**HOSPLTY TOUR AS**	**1**	**AS**	**52.0901**

Prerequisite: Hospitality and Tourism III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Customer Service	**NAF CUSTOMER SERV**	**.5**	**L1**	**52.0207**

Prerequisite: None

Schools must be affiliated with the National Academy Foundation™ program to offer this course

This course introduces students to the concept of service as a critical component of a hospitality or tourism business. Students analyze both good and poor customer service in a variety of contexts and through various methods. Students explore communication skills and strategies, and they use a problem-solving perspective to understand barriers to communication and good service. They learn various means of measuring the quality of service and explore careers that focus on customer service.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Geography for Tourism	**NAF GEO TOURISM**	**.5**	**L2**	**52.1906**

Prerequisite: Must complete one or more Level 1 (L1) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course

This course introduces students to the importance of geography in the hospitality and tourism industry through the study of travel or "destination" geography. It introduces students to the concepts and vocabulary of geography as they explore the world's geographic regions, focusing on factors that create desirable travel destinations: weather/climate, physical features, cultural elements, and historical interest.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Hospitality Marketing	**NAF HOSPLTY MKTG**	**.5**	**L3**	**52.1910**

Prerequisite: Must complete two or more Level 2 (L2) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course

Hospitality Marketing introduces students to the objectives, strategies, and tools that are important to marketing in the hospitality industry, expanding on topics introduced in Principles of Hospitality and Tourism. Students learn about each phase of marketing and the wide range of options that all marketing managers and business owners consider as they create, or revise, marketing plans. Students also explore career opportunities in the field of hospitality marketing.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Principles of Hospitality and Tourism	**NAF PRIN HOSPLTY**	**.5**	**L1**	**52.0901**

Prerequisite: None

Schools must be affiliated with the National Academy Foundation™ program to offer this course

This is the first course students take in the Academy of Hospitality & Tourism and provides an overview of the current hospitality and tourism industry. Students learn about the history of the industry, explore traveler motivation and consumer needs, the industry's economic and environmental impacts, domestic and international travel, and sales in tourism. Finally, students explore careers in the hospitality and tourism industry.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Sports, Entertainment and Event Planning	**NAF EVENT PLANNING**	**.5**	**L3C**	**52.0907**

Prerequisite: Must complete one or more Level 3 (L3) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course

This course introduces students to the skills and knowledge required in the event planning profession. After studying the steps involved in planning a special event, students learn about event planning in sports. They then examine the unique requirements of event planning in entertainment and the performing arts. Students gain valuable experience in project management that can be applied to any career path. They also examine careers in the field of event planning.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Sustainable Tourism	**NAF SUSTAIN TOUR**	**.5**	**L2**	**52.1999**

Prerequisite: Must complete one or more Level 1 (L1) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course

This course introduces students to the profound changes taking place worldwide in the tourism industry. Students examine the environmental and socioeconomic impacts and interrelationships of tourism, as well as the transition to a greener tourism economy. They explore the ramifications of tourism development in terms of increased sustainability, profitability, and benefits to the surrounding communities, and they examine ecotourism as a model for sustainability.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Hospitality and Tourism	**WORK EXPER HOSP**	**1**	**WK**	**99.0009**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

HUMAN SERVICES

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Cosmetology I	**COSMO I**	**6**	**L2**	**12.0401**

Prerequisite: Principles of Cosmetology

The six-credit-block course is designed to prepare students for the Nevada State Board of Cosmetology Licensing Exam and to meet the 1800-hour requirement for licensure. Students have the opportunity to receive a master license that allows them to choose many career options such as a nail technician, aesthetician, or hair stylist. Areas of study include theory and clinical instruction in professional ethics, sanitation, human anatomy, facials, skin care, makeup application, manicures, pedicures, acrylic nails, haircutting, hair coloring, permanent waving, chemical relaxing, and all phases of hair care. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Cosmetology II	**COSMO II**	**6**	**L3C**	**12.0401**

Prerequisite: Cosmetology I

The six-credit-block course is designed to prepare students for the Nevada State Board of Cosmetology Licensing Exam and to meet the 1800-hour requirement for licensure. Students have the opportunity to receive a master license that allows them to choose many career options such as a nail technician, aesthetician, or hair stylist. Areas of study include theory and clinical instruction in professional ethics, sanitation, human anatomy, facials, skin care, makeup application, manicures, pedicures, acrylic nails, haircutting, hair coloring, permanent waving, chemical relaxing, and all phases of hair care. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Family and Consumer Sciences	**FACS**	**1**	**L4C**	**19.0101**

Prerequisite: Human Development I & Fashion Design and Construction I & Foods and Nutrition I

This course is the capstone course for the Family and Consumer Sciences program of study. This course provides advanced studies in family and consumer sciences topics to prepare students for adult roles and responsibilities. The major focus is on developing skills for balancing home, work, and life by studying how to be successful with life management, wealth management, family development, home management, health and fitness, and leadership and community participation. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Foods and Nutrition I	**FOODS I**	**1**	**L1**	**19.0501**

Prerequisite: None

This course provides an introduction to the study of foods and nutrition. Emphasis is placed on the exploration of foods and meal planning in relation to nutrition science, fitness, the lifecycle, customs and preparation techniques. Kitchen safety and sanitation, resources management and employability skills are integral parts of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Foods and Nutrition II	**FOODS II**	**1**	**L2**	**19.0501**

Prerequisite: Foods and Nutrition I

This course is a continuation of Foods and Nutrition I. This course provides intermediate students with more advanced activities in food science and nutrition with an introduction to careers in food sciences and food manufacturing industries. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Foods and Nutrition III	**FOODS III**	**1**	**L3C**	**19.0501**

Prerequisite: Foods and Nutrition II

This course is a continuation of Foods and Nutrition II. This course provides advanced culinary students with instruction in advanced techniques and processes. Students will continue to develop all skills learned in Foods and Nutrition I and II. The appropriate use of technology and industry-stand equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Foods and Nutrition Advanced Studies	**FOODS AS**	**1**	**AS**	**19.0501**

Prerequisite: Foods and Nutrition III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Human Development I	**HUMAN DEVLOP I**	**1**	**L1**	**19.0701**

Prerequisite: None

This course introduces the topic of Human Development. Areas of study include the stages of human growth and development throughout the lifespan with a focus on conception through childhood. Topics include developmental stages and influences on physical, intellectual, social and emotional growth.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Human Development II	**HUMAN DEVLOP II**	**1**	**L2**	**19.0701**

Prerequisite: Human Development I

This course is a continuation of Human Development I. This course allows intermediate human development students to increase their understanding of human growth and development throughout the lifespan with a focus on adolescence through young adulthood. Topics include developmental stages and influences on physical, intellectual, social and emotional growth.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Human Development III	**HUMAN DEVLOP III**	**1**	**L3C**	**19.0701**

Prerequisite: Human Development II

This course is a continuation of Human Development II. This course allows advanced human development students to increase their understanding of human growth and development throughout the lifespan with a focus on middle adulthood through late adulthood. Topics include developmental stages and influences on physical, intellectual, social and emotional growth. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE

Principles of Cosmetology	**PRIN COSMO**	**1**	**L1**	**12.0401**

Prerequisite: None

This course introduces students to the fundamentals of cosmetology. Areas of study include sanitation procedures, safety requirements, tools, and equipment. The appropriate use of technology is an integral part of this course.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Human Services	**WORK EXPER HU SERV**	**1**	**WK**	**99.0010**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

COURSE DESCRIPTIONS

HEALTH SCIENCE

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Biomedical I	**BIOMED I**	**1**	**L1**	**26.0102**

Prerequisite: None

This course introduces students to advanced science courses related to medical fields. Areas of exploration will include infectious, genetic, and life style diseases that are dealt with in the biomedical professions. Topics include medical terminology, nutrition, mitosis and microbiology. Practices incorporate an appreciation of alternative and culturally diverse healthcare contributions by different societies. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Biomedical II	**BIOMED II**	**1**	**L2**	**26.0102**

Prerequisite: Biomedical I

This course is a continuation of Biomedical I. This course allows intermediate biomedical students to develop their knowledge and skills learned in Biomedical I. Areas of study will include body systems, metabolism, exercise physiology, immunology, and homeostatis. The students will be introduced to the interactions of the human body and design experiments to investigate the structure and function. Topics include histology, sensory response, physiology, ATP and wellness. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Biomedical III	**BIOMED III**	**1**	**L3C**	**26.0102**

Prerequisite: Biomedical II

This course is a continuation of Biomedical II. This course provides advanced biomedical students with instruction in advanced techniques and processes. The students will be introduced to pathogen defense, molecular biology, oncology and biomedical engineering. Topics include community health, genetics, cancer, and biotechnology. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Biomedical Advanced Studies	**BIOMED AS**	**1**	**AS**	**26.0102**

Prerequisite: Biomedical III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Dental Assisting I	**DENTAL ASST I**	**1**	**L3**	**51.0601**

Prerequisite: Health Science II or Medical Terminology

This introductory course is designed for the student interested in a career in the dental field. It covers all procedures utilized in the dental office during the practice of dentistry. It gives students a vast knowledge base of dental anatomy, dental disease processes and treatment. It develops the dexterity, knowledge and communication skills needed to work as a dental assistant. Emphasis is placed on developing critical-thinking skills, research skills, and necessary techniques. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Dental Assisting I LAB	**DENTAL ASST I L**	**1**	**L3L**	**51.0601**

Prerequisite: Concurrent enrollment in Dental Assisting I

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Dental Assisting II	**DENTAL ASST II**	**1**	**L4C**	**51.0601**

Prerequisite: Dental Assisting I

This course is a continuation of Dental Assisting I. This course allows advanced dental assisting students to develop their knowledge and skills learned in Dental Assisting I. Areas of study will include oral pathology, dental medications, legal and ethical issues, and research skills. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Dental Assisting Advanced Studies	**DENTAL ASST AS**	**1**	**AS**	**51.0601**

Prerequisite: Dental Assisting II

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Dental Materials and Radiology	**DENT MAT RADIOLOGY**	**1**	**L3**	**51.0601**

Prerequisite: Dental Assisting I

This course provides students with the principles of dental materials and radiology. Areas of study include laboratory techniques, research skills, and radiology. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Emergency Medical Services	**EMER MED SERVICES**	**1**	**L2**	**51.0810**

Prerequisite: Health Science I

This course is a continuation of Health Science I. This entry-level course is designed for the student interested in a career in the pre-hospital emergency medical provider field. Areas of study include personal safety, patient transport (moving and lifting), basic first aid to include medical and trauma emergencies, and CPR. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Emergency Medical Technician	**EMER MED TECH**	**1**	**L3C**	**51.0904**

Prerequisite: Health Science II or Emergency Medical Services

This course is a continuation of Health Science II or Emergency Medical Services. This course is designed for the student interested in a career in the pre-hospital emergency medical provider field. Areas of study include legal and ethical issues, patient's airway, medical and trauma assessment, and medical documentation. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Emergency Medical Technician LAB	**EMER MED TECH L**	**1**	**L3L**	**51.0904**

Prerequisite: Concurrent enrollment in Emergency Medical Technician

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Health Information Management I	**HLTH INFO MGMT I**	**1**	**L2**	**51.0707**

Prerequisite: Health Science I or Medical Terminology

This course is designed to familiarize students with computerized account management and to help students develop confidence and skills necessary to become successful users of Medical Account Management software. Areas of study include understanding the legal aspects of HIPAA and responsibilities of a medical office staff; utilizing a computer program to maintain patient files, store information, match CRT and diagnosis codes with treatment procedures and charges; creating insurance claim forms and following the claim until they are reimbursed and perform related tasks; and creating a professional resume and cover letter appropriate for applying for a medical assistant position in a medical practice. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Health Information Management II	**HLTH INFO MGMT II**	**1**	**L3C**	**51.0707**

Prerequisite: Health Information Management I

This course is a continuation of Health Information Management I. This course allows advanced health information management students to develop their knowledge and skills learned in Health Information Management I. Emphasis will be placed on advanced records management including EMR Software Programs. Reception office skills will cover telephone, scheduling, medical insurance, HIPAA and legal issues. This is an advanced class and will give students necessary practice and experience to work in a medical front office or related field. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Health Information Management Advanced Studies	**HLTH INFO MGMT AS**	**1**	**AS**	**51.0707**

Prerequisite: Health Information Management II

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Health Professions	**HLTH PROFESSIONS**	**1**	**L3**	**51.9999**

Prerequisite: Health Science II

This course is designed to assist students in exploration of a range of health occupations to determine which field best suits their interests, strengths, and abilities. Areas of study include infectious diseases, genetics, medical ethics, nutrition, psychology, pediatrics gerontology, health education, anatomy/physiology, and communication for medical professionals. Students will also be exposed to traditional clinical settings, as well as non-clinical settings such as nutrition, health inspection, communicable diseases, counseling, and alternative medicine. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Health Professions LAB	**HLTH PROFESSIONS L**	**1**	**L3L**	**51.9999**

Prerequisite: Concurrent enrollment in Health Professions

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Health Science I	**HEALTH SCI I**	**1**	**L1**	**51.0000**

Prerequisite: None

This course will introduce students to human structure and function. Areas of study include anatomy, healthcare delivery systems, medical terminology, emergency management, health information technology, and legal practices. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Health Science II	**HEALTH SCI II**	**1**	**L2**	**51.0000**

Prerequisite: Health Science I

This course is a continuation of Health Science I. This course provides advanced health science students with instruction in advanced techniques and processes. Areas of study include medical ethics, hazardous materials, and safety in the workplace, epidemiology, and green practices in healthcare. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this program, students will be prepared for entry into a medical program at the college level.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Human Diseases	**HUM DISEASE**	**1**	**L1**	**51.0999**

Prerequisite: None

This course is designed to expose students to information about human diseases, injuries, and conditions of each body system. Students will utilize previously-learned information regarding normal structure and function and assessment to develop an understanding of disease, injury, and condition processes. Case studies will be used to stimulate problem-solving and critical-thinking skills. Additionally, students will study medical asepsis and disease control and wellness and disease prevention.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Medical Anatomy	**MEDICAL ANAT**	**1**	**L1**	**26.0403**

Prerequisite: None

This course is a survey of the fundamentals of anatomy and physiology. This course is designated as honors level by the accelerated pacing and depth of content. Topics focus on the interrelationships of human body systems that include laboratory experiences, demonstrations, and dissections. Problem solving and case study analysis are an integral part of this course. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Medical Assisting	**MEDICAL ASST**	**1**	**L3C**	**51.0801**

Prerequisite: Health Science II

This course provides advanced health science students with the skills required for entry-level positions such as administrative medical assistant or clinical medical assistant. Demonstrations and laboratory experiences are an integral part of this course. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to our society. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Medical Assisting LAB	**MEDICAL ASST L**	**1**	**L3L**	**51.0801**

Prerequisite: Concurrent enrollment in Medical Assisting

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Medical Assisting Advanced Studies	**MEDICAL ASST AS**	**1**	**AS**	**51.0801**

Prerequisite: Medical Assisting

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Medical Terminology	**MEDICAL TERM**	**1**	**L2**	**51.0899**

Prerequisite: Health Science I

This course is designed to introduce students to the vocabulary, knowledge, and skills required for entry into health-related occupations. Students receive instruction in the vocabulary of human anatomy and physiology, basic health care skills, first aid, cardiopulmonary resuscitation (CPR), and healthcare practices. Students' medical, ethical, and legal responsibilities pertaining to future careers in the health field will be integrated into the course. Students will also be introduced to health-related occupational skills required in the world of work.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Nursing Assistant	**NURSING ASST**	**1**	**L3C**	**51.3902**

Prerequisite: Health Science II or Medical Terminology

This course is designed to provide students with the knowledge and skills required for entry into the healthcare field. Students completing this program, including the clinical practicum, are eligible to apply independently for the Nevada State Board of Nursing Certifying Exam for Nursing Assistants. Due to certification requirements, a student must complete the program in its entirety. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Nursing Assistant LAB	**NURSING ASST L**	**1**	**L3L**	**51.3902**

Prerequisite: Concurrent enrollment in Nursing Assistant

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Pharmacy Technician	**PHARMACY TECH**	**1**	**L3C**	**51.0805**

Prerequisite: Health Science II or Medical Terminology

This course provides students with the introduction to the practices and fundamentals of pharmacology. Areas of study include pharmacy, calculations, routes, inventory management, and factors affecting drug activity. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Pharmacy Technician Advanced Studies	**PHARMACY TECH AS**	**1**	**AS**	**51.0805**

Prerequisite: Pharmacy Technician

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
PLTW-Biomedical Innovation	**PLTW BIOMED INNOV**	**1**	**AS**	**26.0102**

Prerequisite: PLTW-Medical Interventions

Schools must be affiliated with the Project Lead The Way™ program to offer this course*

This course serves as the capstone course for the Biomedical Sciences Project Lead the Way™ curriculum. Students design innovative solutions for the health challenges of the 21st century. They work through progressively challenging open-ended problems, addressing topics such as clinical medicine, physiology, biomedical engineering, and public health. They have the opportunity to work on an independent project with a mentor or advisor from a university, hospital, research institution, or the biomedical industry. Throughout the course, students are expected to present their work to an audience of STEM professionals.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
PLTW-Human Body Systems	**PLTW HUM BODY SYS**	**1**	**L2**	**26.0102**

Prerequisite: PLTW-Principles of Biomedical Sciences

Schools must be affiliated with the Project Lead The Way™ program to offer this course*

This course is a continuation of the Biomedical Sciences Project Lead the Way™ curriculum. Students examine the interactions of human body systems as they explore identity, power, movement, protection, and homeostasis. Students design experiments, investigate the structures and functions of the human body, and use data acquisition software to monitor body functions such as muscle movement, reflex and voluntary action, and respiration. Exploring science in action, students build organs and tissues on a skeletal manikin, work through interesting real world cases and often play the roles of biomedical professionals to solve medical mysteries.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
PLTW-Medical Interventions	**PLTW MED INTERVENT**	**1**	**L3C**	**26.0102**

Prerequisite: PLTW-Human Body Systems

Schools must be affiliated with the Project Lead The Way™ program to offer this course*

This course is a continuation of the Biomedical Sciences Project Lead the Way™ curriculum. Students investigate a variety of interventions involved in the prevention, diagnosis and treatment of disease as they follow the life of a fictitious family. The course is a "How-To" manual for maintaining overall health and homeostasis in the body. Students explore how to prevent and fight infection; screen and evaluate the code in human DNA; prevent, diagnose and treat cancer; and prevail when the organs of the body begin to fail. Through these scenarios, students are exposed to a range of interventions related to immunology, surgery, genetics, pharmacology, medical devices, and diagnostics.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
PLTW-Principles of Biomedical Sciences	**PLTW PRIN BIOMED**	**1**	**L1**	**26.0102**

Prerequisite: None

Schools must be affiliated with the Project Lead The Way™ program to offer this course*

This course is the entry-level course of the Biomedical Sciences Project Lead the Way™ curriculum. Students investigate various health conditions including heart disease, diabetes, sickle-cell disease, hypercholesterolemia, and infectious diseases. They determine the factors that led to the death of a fictional person, and investigate lifestyle choices and medical treatments that might have prolonged the person's life. The activities and projects introduce students to human physiology, medicine, and research processes. This course provides an overview of all the courses in the Biomedical Sciences program and lay the scientific foundation for subsequent courses.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Respiratory Therapy I	**RESP THERAPY I**	**1**	**L3**	**51.0908**

Prerequisite: Health Science II or Medical Terminology

This course provides students with the principles of respiratory therapy. Areas of emphasis include medical terminology, medical math, industry requirements, basic techniques, and procedures. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Respiratory Therapy I LAB	**RESP THERAPY I L**	**1**	**L3L**	**51.0908**

Prerequisite: Concurrent enrollment in Respiratory Therapy I

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Respiratory Therapy II	**RESP THERAPY II**	**1**	**L4C**	**51.0908**

Prerequisite: Respiratory Therapy I

This course is a continuation of Respiratory Therapy I. This course provides advanced respiratory therapy students with instruction in intermediate techniques and processes. The students will continue to develop all skills learned in Respiratory Therapy I. The appropriate use of technology and industry-standard equipment is an integral part of this course. An internship may be incorporated into the course of study to assist students in making a transition from school to work. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Respiratory Therapy II LAB	**RESP THERAPY II L**	**1**	**L4L**	**51.0908**

Prerequisite: Concurrent enrollment in Respiratory Therapy II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Respiratory Therapy Practices	**RESP THERAPY PRACT**	**1**	**L3**	**51.0908**

Prerequisite: Respiratory Therapy I

This course provides students with practical applications of respiratory therapy. Areas of study include diagnostic procedures, patient assessment, equipment use, rehabilitation, and the principle of gas exchange. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Sports Medicine I	**SPORTS MED I**	**1**	**L2**	**51.0913**

Prerequisite: Health Science I

This course is designed to introduce students to the field of sports medicine. It will provide students the opportunity to explore athletic training and sports medicine related fields. Students will receive instruction in sports medicine terminology, physical fitness, anatomy and physiology, kinesiology, injury evaluation and prevention procedures, and careers in sports medicine. Students will also demonstrate skills in cardiopulmonary resuscitation (CPR), first aid, and sports injury management and rehabilitation. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Sports Medicine II	**SPORTS MED II**	**1**	**L3C**	**51.0913**

Prerequisite: Sports Medicine I

This course is a continuation of Sports Medicine I. This course provides advanced sports medicine students with instruction in advanced techniques and processes. This course will give students hands-on experience evaluating injuries commonly sustained by the competitive athlete. It includes all areas of sports medicine such as sports medicine terminology, musculoskeletal anatomy, evaluation, assessment, rehabilitation, and prevention of athletic injuries. Emphasis will be placed on evaluating and assessing athletic injuries. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Sports Medicine Advanced Studies	**SPORTS MED AS**	**1**	**AS**	**51.0913**

Prerequisite: Sports Medicine II

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Health Science	**WORK EXPER HEALTH**	**1**	**WK**	**99.0008**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

LAW, PUBLIC SAFETY, CORRECTIONS & SECURITY

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Criminal Justice I	**CRIMINAL JUST I**	**1**	**L1**	**43.0104**

Prerequisite: None

This course allows students to develop an understanding of the difference between the civil and criminal codes in the American legal system, with a particular emphasis on criminal and civil cases decided by Nevada courts by Nevada Revised Statutes. Students will explore themes in both civil and criminal law reflecting American social, moral, political and economic values. Students will focus on legal terminology and writing, and courtroom environment. Civil law will give an overview of tort, contract, bankruptcy, and administrative law. Students will focus on criminal law and the various aspects of behavior and actions of citizens, corporations and other associations deemed illegal by state and federal governments.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Criminal Justice II	**CRIMINAL JUST II**	**1**	**L2**	**43.0104**

Prerequisite: Criminal Justice I or Foundations of Public Safety

This course is a continuation of Criminal Justice I or Foundations of Public Safety. This course allows intermediate criminal justice students to develop their knowledge and skills. Areas of study will include civil law, criminal law, legal and ethical issues, forensics toxicology, laboratory technology, and research skills. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Criminal Justice III	**CRIMINAL JUST III**	**1**	**L3C**	**43.0104**

Prerequisite: Criminal Justice II

This course is a continuation of Criminal Justice II. This course allows intermediate criminal justice students to develop their knowledge and skills learned in Criminal Justice II. Areas of study will include physical and scientific evidence preservation, interrogations, federal rules, and legalities involving arrests and search and seizure. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Criminal Justice Advanced Studies	**CRIMINAL JUST AS**	**1**	**AS**	**43.0104**

Prerequisite: Criminal Justice III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Emergency Telecommunications I	**EMER TELECOMM I**	**1**	**L1**	**43.0399**

Prerequisite: None

This entry-level course is designed for the student interested in a career in the emergency communications field. Areas of study will include telecommunication centers, dispatching, use of 911 computer systems, participation in emergency scenarios, and call processing. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Emergency Telecommunications II	**EMER TELECOMM II**	**1**	**L2C**	**43.0399**

Prerequisite: Emergency Telecommunications I

This course is a continuation of Emergency Telecommunications I. This course allows advanced emergency telecommunications students to develop their knowledge and skills learned in Emergency Telecommunications I. Areas of study will include instruction using NAED, management of emergency and non-emergency situations, operations of two way radio, computer-aided telecommunication software during catastrophic events. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Emergency Telecommunications II LAB	**EMER TELECOMM II L**	**1**	**L2L**	**43.0399**

Prerequisite: Concurrent enrollment in Emergency Telecommunications II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Entry Level Firefighting	**ENTRY LEVEL FIRE**	**1**	**L3C**	**43.0203**

Prerequisite: Fire Science II

This course is a continuation of Fire Science II. This course allows advanced fire science students to develop their knowledge and skills of advanced principles and procedures employed in fire services. Students will develop response procedures in order to respond to small and catastrophic emergency incidents. Areas of study include incident command systems, fire suppression tactics, EMS training, wildland firefighter Type-2 training, hazardous materials, and technical rescue awareness. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Fire Science I	**FIRE SCI I**	**1**	**L1**	**43.0203**

Prerequisite: None

This course introduces the principles and procedures employed in fire services. Students will practice response procedures in order to respond to small and catastrophic emergency incidents and will study laws, ordinances, regulations and organizational rules that define guidelines that govern emergency fire management. Students will compare career field and related careers to develop a personal perspective and an institutional professional growth plan to develop team building and leadership skills related to fire science.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Fire Science II	**FIRE SCI II**	**1**	**L2**	**43.0203**

Prerequisite: Fire Science I

This course is a continuation of Fire Science I. This course provides fire science students with instruction in advanced techniques and critical thinking. This course provides instruction in the primary factors affecting wildland fire behavior and suppression, fire investigations, fire prevention, CPR/First Aid, engine companies, and potential hazards and human factors on the fire line. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Fire Science Advanced Studies	**FIRE SCI AS**	**1**	**AS**	**43.0203**

Prerequisite: Entry Level Firefighting

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Forensic Photography	**FORENSIC PHOTO**	**1**	**L2**	**43.0199**

Prerequisite: Forensic Science I or Foundations of Public Safety

This course will introduce students to the basic skills related to forensic photography. Areas of study include legal aspects, methods, techniques, and skills associated with crime scene analysis. This course will focus on the techniques and methods that are used with photographic evidence that is a fair and accurate representation of what is depicted at the crime scene. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Forensic Science I	**FORENSIC SCI I**	**1**	**L1**	**43.0106**

Prerequisite: None

This course introduces the principles and procedures employed in criminal and civil investigations. Areas of study include history of forensic science, types of evidence, careers, legal and ethical issues and exploring crime scenes. Emphasis will be put on gathering information that are used to collect evidence, practice unbiased testimony, crime scene photography and crime scene procedures. The appropriate use of technology and industry-standards equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Forensic Science II	**FORENSIC SCI II**	**1**	**L2**	**43.0106**

Prerequisite: Forensic Science I or Foundations of Public Safety

This course is a continuation of Forensic Science I. This course allows for students interested in the forensic science field to develop their knowledge and skills in principles and procedures related to laboratory fundamentals and forensic disciplines. Areas of study include biological and chemical hazards, utilization of lab equipment, lab accreditation, examine of evidence, and fingerprinted processes. The appropriate use of technology and industry-standards equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Forensic Science III	**FORENSIC SCI III**	**1**	**L3C**	**43.0106**

Prerequisite: Forensic Science II

This course is a continuation of Forensic Science II. This course allows advanced forensic science students the opportunity to develop skills in courtroom proceedings and forensic specialties. Areas of study include legal proceedings, examination questioning, death investigations, anthropology, entomology and forensic psychology. Emphasis will be placed on criminal profiling, skeletal remains, pathology, and courtroom personnel. . The appropriate use of technology and industry-standards equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary employment.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Forensic Science Advanced Studies	**FORENSIC SCI AS**	**1**	**AS**	**43.0106**

Prerequisite: Forensic Science III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Foundations of Public Safety	**FOUN PUBLIC SAFETY**	**1**	**L1**	**43.9999**

Prerequisite: None

This course is designed as the foundation for a career pathway in Law, Public Safety, Corrections and Security. Students are introduced to the elements and principles of emergency and fire management services, law enforcement services, legal services, and security and protective services.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Law Enforcement I	**LAW ENFORCE I**	**1**	**L1**	**43.0107**

Prerequisite: None

This course will provide the foundations for students interested in careers in law enforcement and security. Areas of study include ethics, historical development of law enforcement, legal processes, and healthy wellness. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Law Enforcement II	**LAW ENFORCE II**	**1**	**L2**	**43.0107**

Prerequisite: Law Enforcement I or Foundations of Public Safety

This course is a continuation of Law Enforcement I or Foundations of Public Safety. This course provides intermediate law enforcement students with instruction in advanced techniques and processes. Areas of study will include basic functions of a law enforcement officer such as patrol functions, ethics, investigations, victimization, and introduction to the criminal justice system. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Law Enforcement III	**LAW ENFORCE III**	**1**	**L3C**	**43.0107**

Prerequisite: Law Enforcement II

This course is a continuation of Law Enforcement II. This course provides advanced law enforcement students with instruction in advanced techniques and processes. Areas of study will include basic functions of a law enforcement officer such as written agency policies, quality control, procedural law, interrogations, use of force, and emergency management. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Law Enforcement Advanced Studies	**LAW ENFORCE AS**	**1**	**AS**	**43.0107**

Prerequisite: Law Enforcement III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Law Public Safety Corrections and Security	**WORK EXPER LAW**	**1**	**WK**	**99.0012**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

COURSE DESCRIPTIONS

ARTS, A/V TECHNOLOGY & COMMUNICATION

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Fashion Design and Construction I	**FASHION CONST I**	**1**	**L1**	**50.0407**

Prerequisite: None

This course is designed to provide students with an understanding of the psychological and social aspects of clothing, and fundamental concepts of fashion, fashion design and construction. Areas of emphasis include fashion, textiles, clothing construction, merchandising, the use and care of sewing equipment and exploration of careers in the fashion industry.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Fashion Design and Construction II	**FASHION CONST II**	**1**	**L2**	**50.0407**

Prerequisite: Fashion Design and Construction I

This course is a continuation of Fashion, Design, and Construction I. This course allows intermediate students to build on fundamental skills developed in Fashion, Design, and Construction I. This course will provide more in-depth experiences with fashion, textiles, design and construction. Areas of emphasis are comprised of design and illustration, performance characteristics of textile components, commercial production processes, and merchandising, marketing and customer service concepts. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Fashion Design and Construction III	**FASHION CONST III**	**1**	**L3C**	**50.0407**

Prerequisite: Fashion Design and Construction II

This course is a continuation of Fashion, Design, and Construction II. This course allows advanced students to develop their knowledge and skills attained in Fashion, Design, and Construction I and II. This course will cover in greater depth design inspiration, vision and skills, professional portfolio development, advanced techniques such as draping, presentation skills, manufacturing, the merchandising-buying process, promotion, as well as legislation, consumer protection, business operations and entrepreneurship. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Fashion Design and Construction Advanced Studies	**FASHION CONST AS**	**1**	**AS**	**50.0407**

Prerequisite: Fashion Design and Construction III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Foundations of Design	**FOUN DESIGN**	**1**	**L1**	**50.0499**

Prerequisite: None

This course is designed as the foundation for the Fashion, Textiles and Design and Housing and Interior Design programs. Students are introduced to the elements and principles of design as used in the fields of fashion and interior design.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Graphic Communications and Production I	**GRPH COM PROD I**	**1**	**L1**	**10.0301**

Prerequisite: None

This course is designed to introduce the student to fundamental processes involved in printing, binding and finishing of graphic design. Areas of study will include graphic communications history, design theory, pre-press, and imaging operations, production processes, printing processes, screen printing processes, and career exploration.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Graphic Communications and Production II	**GRPH COM PROD II**	**1**	**L2**	**10.0301**

Prerequisite: Graphic Communications and Production I

This course is a continuation of Graphic Communications and Production I. This course allows intermediate graphic communication students to develop their knowledge in processes involved in printing, binding and finishing of graphic design. Areas of study include graphic design theory, pre-press and imaging operations, production processes, printing processes, screen printing processes and career exploration. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Graphic Communications and Production III	**GRPH COM PROD III**	**1**	**L3C**	**10.0301**

Prerequisite: Graphic Communications and Production II

This course is a continuation of Graphic Communications and Production II. This course allows advanced graphic communication students instruction and practice in advanced techniques and processes. They will continue to develop all skills learned in Graphic Communications and Production I and II. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Graphic Communications and Production Advanced Studies	**GRPH COM PROD AS**	**1**	**AS**	**10.0301**

Prerequisite: Graphic Communications and Production III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Graphic Design I	**GRAPHIC DESG I**	**1**	**L1**	**50.0409**

Prerequisite: None

This course is designed to introduce students to the fundamental skills and knowledge needed to create graphic works using industry-standard hardware and software for a variety of purposes and outputs. Areas of study include the understanding of the industry history, terminology, color, design principles, typography and ethical and legal issues related to graphic designs. Emphasis is placed on layout design and the creation and manipulation of graphics.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Graphic Design II	**GRAPHIC DESG II**	**1**	**L2**	**50.0409**

Prerequisite: Graphic Design I

This course is a continuation of Graphic Design I. This course provides advanced graphic design students with instruction in advanced techniques and processes. Students will work on projects simulating challenges found in the design industry such as corporate identity, publishing, advertising, and web applications. Students will develop their skills utilizing industry-standard software and equipment. Portfolio development will be emphasized. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Graphic Design II LAB	**GRAPHIC DESG II L**	**1**	**L2L**	**50.0409**

Prerequisite: Concurrent enrollment in Graphic Design II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Graphic Design III	**GRAPHIC DESG III**	**1**	**L3C**	**50.0409**

Prerequisite: Graphic Design II

This course is a continuation of Graphic Design I. This course provides advanced graphic design students with instruction in advanced techniques and processes. Students will work on projects simulating challenges found in the design industry such as corporate identity, publishing, advertising, web applications, and package design. Portfolio development will be emphasized. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Graphic Design III LAB	**GRAPHIC DESG III L**	**1**	**L3L**	**50.0409**

Prerequisite: Concurrent enrollment in Graphic Design III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Graphic Design Advanced Studies	**GRAPHIC DESG AS**	**1**	**AS**	**50.0409**

Prerequisite: Graphic Design III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Housing and Interior Design I	**INT DESIGN I**	**1**	**L1**	**50.0408**

Prerequisite: None

This course provides students with an introduction to the principles of housing and interior design. Students examine housing and interior decisions made by individuals and families based on their needs, the environment, and technology. Emphasis is placed on selecting goods and services and creating functional and pleasing living environments based on sound financial decisions and design principles.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Housing and Interior Design II	**INT DESIGN II**	**1**	**L2**	**50.0408**

Prerequisite: Housing and Interior Design I

This course is a continuation of Housing and Interior Design I. This course prepares intermediate housing and interior design students for opportunities in the residential and non-residential interior design fields. Topics include application of design theory to interior plans and production, selection of materials, and examination of business procedures. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Housing and Interior Design II LAB	**INT DESIGN II L**	**1**	**L2L**	**50.0408**

Prerequisite: Concurrent enrollment in Housing and Interior Design II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in this program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Housing and Interior Design III	**INT DESIGN III**	**1**	**L3C**	**50.0408**

Prerequisite: Housing and Interior Design II

This course is a continuation of Housing and Interior Design II. This course provides advanced housing and interior design students with instruction in advanced techniques and processes. They will continue to develop all skills learned in Housing and Interior Design I and II. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Housing and Interior Design III LAB	**INT DESIGN III L**	**1**	**L3L**	**50.0408**

Prerequisite: Concurrent enrollment in Housing and Interior Design III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in this program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Housing and Interior Design Advanced Studies	**INT DESIGN AS**	**1**	**AS**	**50.0408**

Prerequisite: Housing and Interior Design III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Pattern Drafting	**PAT DRAFTING**	**1**	**L3**	**50.0407**

Prerequisite: Fashion Design and Construction II

This course is designed to provide students with the theory and application of flat pattern drafting and design. Students apply the principles and elements of design to draft patterns and construct garments. Areas of emphasis include sketching, measurements, and pattern alterations. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Photography I	**PHOTO I**	**1**	**L1**	**50.0406**

Prerequisite: None

This course is designed to introduce students to the fundamentals of commercial photography in relation to seeing photographically, operating cameras, use of light, image capture, and processing digital images. Students will also learn the history of photography, legal and ethical issues related to the industry. Career exploration is also a part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Photography II	**PHOTO II**	**1**	**L2**	**50.0406**

Prerequisite: Photography I

This course is a continuation of Photography I. This course provides intermediate photography students with instruction in advanced digital techniques and processes. Areas of study include operating cameras, use of light, image capture, and processing digital images. Students will also learn the history of photography, legal and ethical issues related to the industry. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Photography III	**PHOTO III**	**1**	**L3C**	**50.0406**

Prerequisite: Photography II

This course is a continuation of Photography II. This course provides advanced photography students with instruction in advanced digital techniques and processes in commercial photography. Manipulation of images using industry-standard software is also included. Students will be required to exhibit their projects. Students will be prepared for industry certifications. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Photography Advanced Studies	**PHOTO AS**	**1**	**AS**	**50.0406**

Prerequisite: Photography III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Radio Production I	**RADIO PROD I**	**1**	**L1**	**10.0202**

Prerequisite: None

This course is designed to introduce students to the basic elements and skills needed for radio broadcast production. Students will learn the basics of broadcast news writing, how to gather and incorporate sound, and basic laws and ethical issues of the industry. Equipment instruction includes operating radio amplifiers, mixers, audio boards, microphones, music CDs, and MP3s. Internet and On-Air program production are emphasized. Students will become familiar with radio production techniques used within the broadcast industry.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Radio Production II	**RADIO PROD II**	**1**	**L2**	**10.0202**

Prerequisite: Radio Production I

This course is a continuation of Radio Production I. Intermediate radio production students will receive instruction in techniques for broadcast news writing, gathering and incorporating sound, and production operations. Emphasis is placed on principles to produce a live broadcast, pre/post-production, editing techniques, studio, and engineering procedures, and production skills. An application of laws and ethics within the broadcast industry is included. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Radio Production II LAB	**RADIO PROD II L**	**1**	**L2L**	**10.0202**

Prerequisite: Concurrent enrollment in Radio Production II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Radio Production III	**RADIO PROD III**	**1**	**L3C**	**10.0202**

Prerequisite: Radio Production II

This course is a continuation of Radio Production II. This course provides advanced radio production students with instruction in advanced techniques and processes in radio broadcast and production. Emphasis is placed on the practical application of skills to produce live and prerecorded broadcast. Pre/post-production, editing techniques, studio and engineering procedures, and production skills will be utilized and honed. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Radio Production III LAB	**RADIO PROD III L**	**1**	**L3L**	**10.0202**

Prerequisite: Concurrent enrollment in Radio Production III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Radio Production Advanced Studies	**RADIO PROD AS**	**1**	**AS**	**10.0202**

Prerequisite: Radio Production III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Theatre Technology I	**THEATRE TECH I**	**1**	**L1**	**50.0502**

Prerequisite: None

This course will introduce the student to the craft and technical skills of a theatrical production. Students will be instructed in theatre safety, stage lighting, sound, scenic design and construction, properties, painting, and backstage responsibilities.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Theatre Technology II	**THEATRE TECH II**	**1**	**L2**	**50.0502**

Prerequisite: Theatre Technology I

This course is a continuation of Theatre Technology I. This course provides intermediate theater design technology students with instruction in advanced techniques and processes. Areas of study include lighting, sound, stage, and set design. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Theatre Technology III	**THEATRE TECH III**	**1**	**L3C**	**50.0502**

Prerequisite: Theatre Technology II

This course is a continuation of Theatre Technology II. This course provides advanced theater design technology students with instruction in advanced techniques and processes. Areas of study include lighting, sound, stage, and set design. Students will be expected to design, construct and apply theatre production skills for all school productions. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Theatre Technology Advanced Studies	**THEATRE TECH AS**	**1**	**AS**	**50.0502**

Prerequisite: Theatre Technology III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Video Production I	**VIDEO PROD I**	**1**	**L1**	**50.0602**

Prerequisite: None

This course is designed to introduce students to the basic elements and skills needed to produce a video. Operating video cameras, script writing, editing equipment, microphones, and the process of On-Air program production are emphasized. Students will become familiar with video production techniques for a variety of purposes, including broadcast journalism.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Video Production II	**VIDEO PROD II**	**1**	**L2**	**50.0602**

Prerequisite: Video Production I

This course is a continuation of Video Production I. This course provides intermediate video production students with instruction in advanced techniques and processes. Emphasis is placed on the advanced principles in pre/post-production, editing techniques, studio and engineering procedures, and live broadcast skills. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Video Production II LAB	**VIDEO PROD II L**	**1**	**L2L**	**50.0602**

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Arts A/V Technology and Communication	**WORK EXPER TECH**	**1**	**WK**	**99.0003**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

INFORMATION TECHNOLOGY

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Animation I	**ANIMATE I**	**1**	**L1**	**10.0304**

Prerequisite: None

This course introduces students to the basic principles of two and three-dimensional computer animation and graphics. Areas of study include storyboarding, character creation, background development, traditional animation techniques, and the use of industry-standard technology. Projects are provided to develop the student's career-based animation skills.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Animation II	**ANIMATE II**	**1**	**L2**	**10.0304**

Prerequisite: Animation I

This course is a continuation of Animation I. This course provides students further instruction in principles of two and three-dimensional computer animation and graphics. Areas of study include storyboarding, character creation, modeling, background development, and traditional animation techniques. Projects are provided to develop the student's career-based animation skills. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Animation II LAB	**ANIMATE II L**	**1**	**L2L**	**10.0304**

Prerequisite: Concurrent enrollment in Animation II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Animation III	**ANIMATE III**	**1**	**L3C**	**10.0304**

Prerequisite: Animation II

This course is a continuation of Animation II. This course provides students advanced instruction in principles of two and three-dimensional computer animation and graphics. Areas of study include storyboarding, character creation, modeling, background development, and traditional animation techniques. Projects are provided to develop the student's career-based animation skills. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Animation III LAB	**ANIMATE III L**	**1**	**L3L**	**10.0304**

Prerequisite: Concurrent enrollment in Animation III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Animation Advanced Studies	**ANIMATE AS**	**1**	**AS**	**10.0304**

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
AP Computer Science A	**AP COMPUTER SCI A**	**1**	**L3C**	**11.0701**

Prerequisite: Computer Science II

This course is a continuation of Computer Science II. This course follows The College Board Advanced Placement curriculum and prepares students for the AP Computer Science exam. The course provides advanced computer science students with instruction in advanced programming, techniques and processes. The students will continue to develop all skills learned in Computer Science I and II. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Computer Science I	**COMPUTER SCI I**	**1**	**L1**	**11.0701**

Prerequisite: None

This course is designed to introduce students to programming and the role of the computer in society. The areas of major emphasis in the course will be on object-oriented programming methodology, algorithms, data structures and ethics. Topics will include program design, program implementation, standard data structures, standard algorithms and an introduction to C++ language.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Computer Science II	**COMPUTER SCI II**	**1**	**L2**	**11.0701**

Prerequisite: Computer Science I

This course is a continuation of Computer Science I. This course provides intermediate computer science students with instruction in advanced techniques and processes, particularly as it relates to the language of C++. The areas of major emphasis in the course will be on object-oriented programming methodology, algorithms, data structures and ethics. Topics will include program design, program implementation, standard data structures, and standard algorithms. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Computer Science II LAB	**COMPUTER SCI II L**	**1**	**L2L**	**11.0701**

Prerequisite: Concurrent enrollment in Computer Science II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Computer Science III	**COMPUTER SCI III**	**1**	**L3C**	**11.0701**

Prerequisite: Computer Science II

This course is a continuation of Computer Science II. This course provides advanced computer science students with instruction in advanced programming, techniques and processes, with an emphasis in the language of Java. The students will continue to develop all skills learned in Computer Science I and II. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Computer Science III LAB	**COMPUTER SCI III L**	**1**	**L3L**	**11.0701**

Prerequisite: Concurrent enrollment in Computer Science III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

Computer Science Advanced Studies	**COMPUTER SCI AS**	**1**	**AS**	**11.0701**

Prerequisite: Computer Science III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Database Design I	**DBASE DESG I**	**1**	**L1**	**11.0802**

Prerequisite: None

This course is designed to introduce students to the fundamentals of database design and development. Areas of study include database design, a structured approach to system development, creation and manipulation of data, and retrieval of information from databases. As students learn data modeling, they will also begin to query the databases.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Database Design II	**DBASE DESG II**	**1**	**L2**	**11.0802**

Prerequisite: Database Design I

This course is a continuation of Database Design I. This course provides advanced database design students with instruction in advanced techniques and processes and aligns to the Oracle certification curriculum. Students will learn to declare variables, develop stored procedures and use functions. Students will extend their knowledge by learning more advanced features such as creating database triggers, manipulating large objects, and managing dependencies. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Database Design II LAB	**DBASE DESG II L**	**1**	**L2L**	**11.0802**

Prerequisite: Concurrent enrollment in Database Design II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Digital Game Development I	**DIG GAME DEV I**	**1**	**L1**	**50.0411**

Prerequisite: None

This course is designed to introduce students to the elements and structure of game programming and design. The areas of major emphasis in the course are game methodology, programming, game genres, game theory, 2D and 3D interactive experiences, and immersive environments. Students will apply both creative and technical skills to design and refine in addition to implementing the adventure. The appropriate use of technology is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Digital Game Development II	**DIG GAME DEV II**	**1**	**L2**	**50.0411**

Prerequisite: Digital Game Development I

This course is a continuation of Digital Game Development I. This course provides intermediate digital game development students with instruction in advanced techniques and processes. The major areas of emphasis in the course will be development of characters, immersive environments, different genres and exploration of multi-player games. Students will apply both creative and technical skills to design and refine in addition to implementing the adventure. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Digital Game Development II LAB	**DIG GAME DEV II L**	**1**	**L2L**	**50.0411**

Prerequisite: Concurrent enrollment in Digital Game Development II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Digital Game Development III	**DIG GAME DEV III**	**1**	**L3C**	**50.0411**

Prerequisite: Digital Game Development II

This course is a continuation of Digital Game Development II. This course provides advanced digital game development students with instruction in advanced techniques and production processes, various pay models and considerations to market a game. Emphasis is placed on students developing digital games that include intermediate and advanced concepts in design, programming, animation, and 3-D techniques. Project-based learning, collaboration, and portfolio development are essential elements of this course. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
IT Networking I	**IT NETWRKG I**	**1**	**L1**	**11.1002**

Prerequisite: None

This course will introduce students to the general theories needed to design, build, and maintain home and small business networks. Concepts learned will provide the students with the opportunity to further their education in Information Technology (IT) and prepare for entry-level IT careers.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
IT Networking II	**IT NETWRKG II**	**1**	**L2**	**11.1002**

Prerequisite: IT Networking I

This course is a continuation of IT Networking I. This course provides intermediate students with the general theory of distance vector routing protocols and skills required for advanced router configuration, including interfaces, Routing Information Protocol (RIP) and Enhanced Interior Gateway Routing Protocol (EIGRP). Concepts learned will provide the students with the opportunity to further their education in Information Technology (IT) and prepare for entry-level IT careers. Upon completion of this sequence of courses, students may qualify to sit for a national industry-standard certification exam.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
IT Networking III	**IT NETWRKG III**	**1**	**L3C**	**11.1002**

Prerequisite: IT Networking II

This course is a continuation of IT Networking II. This course provides intermediate students with the general theory of switching and intermediate routing, including virtual local-area networks (VLAN), interVLAN routing, wireless local area networks (LAN), and network troubleshooting. Concepts learned will provide the students with the opportunity to further their education in Information Technology (IT) and prepare for entry-level IT careers. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
IT Networking Advanced Studies	**IT NETWRKG AS**	**1**	**AS**	**11.1002**

Prerequisite: IT Networking III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Computer Networking	**NAF COMP NETWORK**	**.5**	**L3C**	**11.1002**

Prerequisite: Must complete one or more Level 3 (L3) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Computer Networking is a hands-on introduction to peer-to-peer and client/server networks. The course guides students through all phases of implementing and troubleshooting common TCP/IP Ethernet networks. It covers network components, cables, and connectors, as well as the OSI model, protocols, and topologies. Students implement and troubleshoot a LAN and learn about access issues for WANs. Finally, students explore opportunities for network-related careers.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Computer Systems	**NAF COMP SYSTEMS**	**.5**	**L3**	**11.0701**

Prerequisite: Must complete two or more Level 2 (L2) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Computer Systems walks students through the intricacies of setting up hardware, installing software, connecting to a network, and connecting to the Internet. Students get hands-on practice upgrading operating systems. They get practice assembling and disassembling computer hardware including peripherals, motherboards, FRUs, and connectors. Students also learn troubleshooting techniques. Finally, students get a chance to explore careers for computer systems professionals.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Database Design	**NAF DBASE DESG**	**.5**	**L3**	**11.0802**

Prerequisite: Must complete two or more Level 2 (L2) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Database Design covers all aspects of the database life cycle, from collecting user requirements to delivering a database application. Students get hands-on practice in a true-to-life database project as they move from a statement of requirements to a conceptual model, then to an entity-relationship model. They translate this into a relational database. Finally, they create, test, and document the associated database application. Students also examine career opportunities as database professionals.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Digital Video Production	**NAF DIG VIDEO PROD**	**.5**	**L2**	**50.0602**

Prerequisite: Must complete one or more Level 1 (L1) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Digital Video Production provides a hands-on introduction to digital video production. It guides students through all phases of digital video production, from planning, executing, and managing a video shoot to editing footage. Students explore methods of sharing and broadcasting digital videos, including platform versions, CDs/DVDs, and web delivery. They also learn about publicizing a digital video, using techniques such as search engines to direct viewers to the production.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Graphic Design	**NAF GRAPHIC DESIGN**	**.5**	**L2**	**50.0409**

Prerequisite: Must complete one or more Level 1 (L1) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Graphic Design provides a hands-on introduction to the technical and creative skills of a professional graphic designer. First students learn the distinguishing features of communicating visually through graphic design. Next, they gain technical skills in Adobe Photoshop to equip them for graphic design work. From there, students master the basic principles of graphic design, and then delve into the elements of graphic design, such as color, typography, and images.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Introduction to Programming	**NAF INTRO PROG**	**.5**	**L3**	**11.0201**

Prerequisite: Must complete two or more Level 2 (L2) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

Introduction to Programming uses Python as a basis for learning general programming skills. Students learn programming principles by comparing Python to other programming languages. They use models as a way to quickly solve new problems using knowledge and techniques already learned. Students complete over 60 programs in the course, including both text and graphics/animation programs. In addition to programming, students learn program design, documentation, formal debugging, and testing. Finally, students examine career opportunities in programming.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Principles of Information Technology	**NAF PRIN IT**	**.5**	**L1**	**15.1201**

Prerequisite: None

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

This is the first course students take in the Academy of Information Technology. It provides an overview of information technology and introduces students to the basics of hardware and software. Students examine hardware components including peripherals, connectors, and memory. Students explore common operating systems, software applications, and programming languages. Students learn about types of networks and network topology, and they set up an email client/server connection.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Principles of Information Technology IC3	**NAF PRIN IT IC3**	**.5**	**L1**	**15.1201**

Prerequisite: NAF-Principles of Information Technology

Schools must be affiliated with the National Academy Foundation™ program to offer this course*

The IC^3 Certification Extension is a second-semester extension to the NAF course Principles of Information Technology. The purpose of this course extension is to prepare students to pass the IC^3 Certification exam. It is geared to the Global Standard 3 (August, 2009) version of the IC^3 exam, which includes Computing Fundamentals, Key Applications, and Living Online. This course extension assumes that students have successfully completed Principles of Information Technology.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
NAF-Web Design	**NAF WEB DESG**	**.5**	**L2**	**11.0801**

Prerequisite: Must complete one or more Level 1 (L1) NAF courses

Schools must be affiliated with the National Academy Foundation™ program to offer this course

Web Design is a hands-on introduction to designing, building, and launching Web sites. Students learn about Web development including HTML coding, usability, design, and Web-based publishing tools. Students determine business requirements, gather Web content, create Web pages, conduct usability testing, launch their Web sites, and plan how to attract traffic. Finally, students take a look at various career opportunities in Web design.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Web Design and Development I	**WEB DESG DEV I**	**1**	**L1**	**11.0801**

Prerequisite: None

This course is designed to introduce students to the basic elements of web design and development. Students will learn about content placement, use of color and graphics, typography and message using industry-standard software. Students are introduced to various web design languages, design concepts, and layout theory. Students will become familiar with marketing and other uses of websites; as well as ethical and legal issues related to websites.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Web Design and Development II	**WEB DESG DEV II**	**1**	**L2**	**11.0801**

Prerequisite: Web Design and Development I

This course is a continuation of Web Design and Development I. This course is designed for intermediate students to create websites for a variety of purposes. Students will develop their knowledge of content, placement, use of color and graphics, typography and message. Students will use various web design languages, design concepts, and layout theories to create their websites. Students will examine the role of marketing, market research, ethics and legal issues as it relates to websites. Project-based learning, collaboration, and portfolio development are essential elements of this class. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Web Design and Development II LAB	**WEB DESG DEV II L**	**1**	**L2L**	**11.0801**

Prerequisite: Concurrent enrollment in Web Design and Development II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Web Design and Development III	**WEB DESG DEV III**	**1**	**L3C**	**11.0801**

Prerequisite: Web Design and Development II

This course is a continuation of Web Design and Development II. This course is designed for advanced students to create websites for a variety of purposes using advanced techniques and processes. Areas of study include automation, animation and interactivity in websites, as well as, web servers and a more extensive knowledge of website construction. Project-based learning, collaboration, and portfolio development are essential elements of this class. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Web Design and Development III LAB	**WEB DESG DEV III L**	**1**	**L3L**	**11.0801**

Prerequisite: Concurrent enrollment in Web Design and Development III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Web Design and Development Advanced Studies	**WEB DESG DEV AS**	**1**	**AS**	**11.0801**

Prerequisite: Web Design and Development III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Information Technology	**WORK EXPER IT**	**1**	**WK**	**99.0011**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

COURSE DESCRIPTIONS

ARCHITECTURE & CONSTRUCTION

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Air Conditioning and Refrigeration I	**HVACR I**	**1**	**L1**	**47.0201**

Prerequisite: None

This course will introduce students to the basic operation of air conditioning principles and practices. Applications include principles of an effective employee, industrial safety standards, thermodynamics, psychometrics, piping techniques, control systems, cooling system service, and electric heat systems.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Air Conditioning and Refrigeration II	**HVACR II**	**1**	**L2**	**47.0201**

Prerequisite: Air Conditioning and Refrigeration I

This course is a continuation of Air Conditioning and Refrigeration I. This course focuses intermediate air conditioning and refrigeration students on servicing air handling systems, heat pumps, gas heat systems, commercial refrigeration systems, and icemakers. Instruction is provided in system installation, troubleshooting techniques, calculation of heat loss/gain, ductwork size and design, air balance, and pneumatic controls. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Air Conditioning and Refrigeration II LAB	**HVACR II L**	**1**	**L2L**	**47.0201**

Prerequisite: Concurrent enrollment in Air Conditioning and Refrigeration II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Air Conditioning and Refrigeration III	**HVACR III**	**1**	**L3C**	**47.0201**

Prerequisite: Air Conditioning and Refrigeration II

This course is a continuation of Air Conditioning and Refrigeration II. This course provides advanced air conditioning and refrigeration students with instruction in advanced techniques and processes. The students will continue to develop all skills learned in Air Conditioning and Refrigeration I and II. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Air Conditioning and Refrigeration III LAB	**HVACR III L**	**1**	**L3L**	**47.0201**

Prerequisite: Concurrent enrollment in Air Conditioning and Refrigeration III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Air Conditioning and Refrigeration Advanced Studies	**HVACR AS**	**1**	**AS**	**47.0201**

Prerequisite: Air Conditioning and Refrigeration III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Architectural Drafting and Design I	**ARCH CADD I**	**1**	**L1**	**15.1303**

Prerequisite: None

This course provides CADD (Computer-Aided Drafting and Design) students with the basic principles of architectural drawing and design and introductory civil engineering skills. This course also provides a basic understanding of current building codes, basic building construction methods, building materials, and architectural drafting information and methods. Activities are provided to develop the student's architectural CADD and civil engineering skills. The appropriate use of technology is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Architectural Drafting and Design II	**ARCH CADD II**	**1**	**L2**	**15.1303**

Prerequisite: Architectural Drafting and Design I

This course is a continuation of Architectural Drafting and Design I. This course provides intermediate CADD (Computer-Aided Drafting and Design) students with advanced principles of architectural drawing and design and civil engineering skills. This course will expand the students' knowledge of current building codes, building construction methods, building materials, and architectural drafting information and methods. Activities are provided to develop the student's architectural CADD and civil engineering skills. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Architectural Drafting and Design II LAB	**ARCH CADD II L**	**1**	**L2L**	**15.1303**

Prerequisite: Concurrent enrollment in Architectural Drafting and Design II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Architectural Drafting and Design III	**ARCH CADD III**	**1**	**L3C**	**15.1303**

Prerequisite: Architectural Drafting and Design II

This course is a continuation of Architectural Drafting and Design II. This course provides advanced CADD (Computer-Aided Drafting and Design) students with instruction in advanced techniques and processes. The students will continue to develop all skills learned in Architectural Drafting and Design I and II. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Architectural Drafting and Design III LAB	**ARCH CADD III L**	**1**	**L3L**	**15.1303**

Prerequisite: Concurrent enrollment in Architectural Drafting and Design III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Architectural Drafting and Design Advanced Studies	**ARCH CADD AS**	**1**	**AS**	**15.1303**

Prerequisite: Architectural Drafting and Design III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Construction Technology I	**CONST TECH I**	**1**	**L1**	**46.0000**

Prerequisite: None

This course will introduce students to the world of construction. Through a hands-on approach, each student will develop basic understanding in the areas of construction: safety, blueprint reading, framing, site layout techniques, floor systems, and wall systems. Practical application of safe work habits and the correct use of tools and equipment will be emphasized throughout this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Construction Technology II	**CONST TECH II**	**1**	**L2**	**46.0000**

Prerequisite: Construction Technology I

This course is a continuation of Construction Technology I. This course provides intermediate construction students with knowledge and skills in material handling, surveying, site development, concrete, masonry, roof systems, and electrical systems. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Construction Technology II LAB	**CONST TECH II L**	**1**	**L2L**	**46.0000**

Prerequisite: Concurrent enrollment in Construction Technology II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Construction Technology III	**CONST TECH III**	**1**	**L3C**	**46.0000**

Prerequisite: Construction Technology II

This course is a continuation of Construction Technology II. This course provides advanced construction students with knowledge and skills in plumbing, stair layout, HVAC, and exterior applications. Through hands-on projects, students develop technical skills that are used throughout the construction industry. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Construction Technology III LAB	**CONST TECH III L**	**1**	**L3L**	**46.0000**

Prerequisite: Concurrent enrollment in Construction Technology III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Construction Technology Advanced Studies	**CONST TECH AS**	**1**	**AS**	**46.0000**

Prerequisite: Construction Technology III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Drafting and Design I	**CADD I**	**1**	**L1**	**15.1302**

Prerequisite: None

This course introduces the student to the fundamentals of mechanical and architectural drawing. This course provides students with the knowledge and practice required to produce and analyze multi-view drawings, pictorial drawings, and dimensioning. Students will gain experience using both sketching techniques and computer assisted drafting programs. Various career opportunities and areas for postsecondary study will be explored.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Drafting and Design II	**CADD II**	**1**	**L2**	**15.1302**

Prerequisite: Drafting and Design I

This course is a continuation of Drafting and Design I. This course provides intermediate CADD (Computer-Aided Drafting and Design) students with advanced techniques and processes related to the various drafting and design industries. Areas of study include the development of advance CADD and sketching skills, plotting, scaling, auxiliary views, intersections, problem solving, critiquing, and team building. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Drafting and Design II LAB	**CADD II L**	**1**	**L2L**	**15.1302**

Prerequisite: Concurrent enrollment in Drafting and Design II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Drafting and Design III	**CADD III**	**1**	**L3C**	**15.1302**

Prerequisite: Drafting and Design II

This course is a continuation of Drafting and Design II. This course provides advanced CADD (Computer-Aided Drafting and Design) students with instruction in advanced techniques and processes. The students will continue to develop all skills learned in Drafting and Design I and II. Areas of study include both mechanical and architectural drafting and design concepts. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Drafting and Design III LAB	**CADD III L**	**1**	**L3L**	**15.1302**

Prerequisite: Concurrent enrollment in Drafting and Design III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Drafting and Design Advanced Studies	**CADD AS**	**1**	**AS**	**15.1302**

Prerequisite: Drafting and Design III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Furniture and Cabinetmaking I	**FURN CABINET I**	**1**	**L1**	**48.0702**

Prerequisite: None

This course will introduce the beginning furniture and cabinetmaking student to the various stages of construction and assembly of wood products and related materials. This course is intended to provide students with the basic knowledge and skills necessary to design, construct, and finish furniture and/or cabinets in the woodworking industry. Through the course activities the student will gain an understanding of safety procedures, machine operation, and industrial applications.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Furniture and Cabinetmaking II	**FURN CABINET II**	**1**	**L2**	**48.0702**

Prerequisite: Furniture and Cabinetmaking I

This course is a continuation of Furniture and Cabinetmaking I. This course provides intermediate furniture and cabinetmaking student with the necessary knowledge and skills to pursue employment in related industries. This course will increase knowledge gained in Furniture and Cabinetmaking I. Laboratory activities will include advanced processes using tools and equipment currently being used by the industry. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Furniture and Cabinetmaking III	**FURN CABINET III**	**1**	**L3C**	**48.0702**

Prerequisite: Furniture and Cabinetmaking II

This course is a continuation of Furniture and Cabinetmaking II. This course provides advanced furniture and cabinetmaking students with knowledge and skills in finish carpentry and cabinetmaking for construction applications. Through hands-on projects, students develop technical skills that are used throughout the construction industry including the software and hardware components of computer numerical-controlled (CNC) equipment. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Furniture and Cabinetmaking Advanced Studies	**FURN CABINET AS**	**1**	**AS**	**48.0702**

Prerequisite: Furniture and Cabinetmaking III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Architecture and Construction	**WORK EXPER CONST**	**1**	**WK**	**99.0002**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

MANUFACTURING

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Electronic Technology I	**ELEC TECH I**	**1**	**L1**	**47.0105**

Prerequisite: None

This course introduces the student to electronic practices and fundamentals, roles of electronics in communications and industry, and career development. Topics include safety, tools, basic direct current (DC), alternating current (AC), schematics, soldering, measuring electricity, Ohm's/Watt's/Kirchhoff's Laws, semiconductors, electronic circuits, and digital theory.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Electronic Technology II	**ELEC TECH II**	**1**	**L2**	**47.0105**

Prerequisite: Electronic Technology I

This course is a continuation of Electronic Technology I. This course introduces intermediate students to advanced practices, principles, special equipment and materials. Students will develop their knowledge and skills learned in Electronic Technology I. Topics include safety, inductive/capacitive/RCL circuits, semiconductor devices, rectifier/filter circuits, discrete devices and such skills necessary to obtain meaningful employment in the electronics industry. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Electronic Technology II LAB	**ELEC TECH II L**	**1**	**L2L**	**47.0105**

Prerequisite: Concurrent enrollment in Electronic Technology II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Electronic Technology III	**ELEC TECH III**	**1**	**L3C**	**47.0105**

Prerequisite: Electronic Technology II

This course is a continuation of Electronic Technology II. This course provides advanced electronics students with instruction in advanced techniques and processes. They will continue to develop all skills learned in Electronic Technology I and II. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Electronic Technology III LAB	**ELEC TECH III L**	**1**	**L3L**	**47.0105**

Prerequisite: Concurrent enrollment in Electronic Technology III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Electronic Technology Advanced Studies	**ELEC TECH AS**	**1**	**AS**	**47.0105**

Prerequisite: Electronic Technology III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Machine Tool Technology I	**MACHINE TOOL I**	**1**	**L1**	**48.0501**

Prerequisite: None

This course introduces students to the basic skills and machines needed in precision metal work. Students gain machining skills while working with lathes, milling machines, surface grinders, drill presses, and other equipment. In addition, students learn the basics of blueprint reading, precision measuring, layout, and machining process planning.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Machine Tool Technology I LAB	**MACHINE TOOL I L**	**1**	**L1L**	**48.0501**

Prerequisite: Concurrent enrollment in Machine Tool Technology I

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Machine Tool Technology II	**MACHINE TOOL II**	**1**	**L2C**	**48.0501**

Prerequisite: Machine Tool Technology I

This course is a continuation of Machine Tool Technology I. This course provides advanced machine tool technology students with more in-depth skill development in various types of precision tool operation, especially using mills, lathes, and surface grinders to perform machining tasks. Power cutoff saws and power band saws are also covered. Students also explore the use of computer and numerical controlled machining. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Machine Tool Technology II LAB	**MACHINE TOOL II L**	**1**	**L2L**	**48.0501**

Prerequisite: Concurrent enrollment in Machine Tool Technology II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Mechanical Drafting and Design I	**MECH CADD I**	**1**	**L1**	**15.1306**

Prerequisite: None

This course provides beginning CADD (Computer-Aided Drafting and Design) students with the basic principles of mechanical and technical drawing. This course provides students with the knowledge and practice required to produce and analyze multi-view drawings, pictorial drawings, and dimensioning. Students will gain experience using both sketching techniques and computer assisted drafting programs. Various career opportunities and areas for postsecondary study will be explored.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Mechanical Drafting and Design II	**MECH CADD II**	**1**	**L2**	**15.1306**

Prerequisite: Mechanical Drafting and Design I

This course is a continuation of Mechanical Drafting and Design I. This course provides intermediate CADD (Computer-Aided Drafting and Design) students with advanced techniques and processes of the mechanical design industry. Areas of study include electrical and mechanical engineering design, geometric dimensioning and tolerancing, pattern development, and other engineering design technologies. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Mechanical Drafting and Design II LAB	**MECH CADD II L**	**1**	**L2L**	**15.1306**

Prerequisite: Concurrent enrollment in Mechanical Drafting and Design II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Mechanical Drafting and Design III	**MECH CADD III**	**1**	**L3C**	**15.1306**

Prerequisite: Mechanical Drafting and Design II

This course is a continuation of Mechanical Drafting and Design II. This course provides advanced CADD (Computer-Aided Drafting and Design) students with advanced techniques and processes of the mechanical design industry. They will continue to develop all skills learned in Mechanical Drafting and Design I and II. Areas of study include electrical and mechanical engineering design, geometric dimensioning and tolerancing, pattern development, and other engineering design technologies. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Mechanical Drafting and Design III LAB	**MECH CADD III L**	**1**	**L3L**	**15.1306**

Prerequisite: Concurrent enrollment in Mechanical Drafting and Design III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Mechanical Drafting and Design Advanced Studies	**MECH CADD AS**	**1**	**AS**	**15.1306**

Prerequisite: Mechanical Drafting and Design III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Mechanical Technology I	**MECH TECH I**	**1**	**L1**	**47.0303**

Prerequisite: None

This course introduces students to the operation and maintenance of various mechanical, electrical, and fluid power systems. Content includes general skills in the use of tools, safety, equipment, materials, and problem solving. Fundamental skills such as the proper use of fasteners, safety practices, precision measuring tools, and electrical test equipment will be mastered.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Mechanical Technology II	**MECH TECH II**	**1**	**L2**	**47.0303**

Prerequisite: Mechanical Technology I

This course is a continuation of Mechanical Technology I. This course provides intermediate mechanical technology students opportunities to explore the various forms of power application mechanisms. Areas of emphasis include robotics, hydraulics, pneumatics, electrical, mechanical, and other systems of power transmission. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Mechanical Technology II LAB	**MECH TECH II L**	**1**	**L2L**	**47.0303**

Prerequisite: Concurrent enrollment in Mechanical Technology II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Mechanical Technology III	**MECH TECH III**	**1**	**L3C**	**47.0303**

Prerequisite: Mechanical Technology II

This course is a continuation of Mechanical Technology II. This course provides advanced mechanical technology students with instruction in advanced techniques and processes. Areas of emphasis include assembling, operating, and maintaining various electrical motor controllers, mechanical power transmission systems, and high pressure fluid power systems. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Mechanical Technology III LAB	**MECH TECH III L**	**1**	**L3L**	**47.0303**

Prerequisite: Concurrent enrollment in Mechanical Technology III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Mechanical Technology Advanced Studies	**MECH TECH AS**	**1**	**AS**	**47.0303**

Prerequisite: Mechanical Technology III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Metalworking I	**METALWRKG I**	**1**	**L1**	**48.0511**

Prerequisite: None

This course introduces students to a general overview of metalworking processes. Students will gain an understanding of equipment, tools, safety procedures, machine operation, metal-fabricating methods, industrial applications, and problem solving. Students will be introduced to career opportunities and necessary job skills.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Metalworking II	**METALWRKG II**	**1**	**L2**	**48.0511**

Prerequisite: Metalworking I

This course is a continuation of Metalworking I. This course will enhance students' occupational levels of training, understanding, and skill development in the metal-working processes. Emphasis will be directed toward the principles of metallurgy, metal lathe operation, forging methods, casting process, welding, and heat-treating procedures. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Metalworking III	**METALWRKG III**	**1**	**L3C**	**48.0511**

Prerequisite: Metalworking II

This course is a continuation of Metalworking II. This course is designed to review the elements and processes of metalworking. Students will further develop skills by learning complex metal machining procedures, metallurgy, and industrial production methods and controls. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Metalworking Advanced Studies	**METALWRKG AS**	**1**	**AS**	**48.0511**

Prerequisite: Metalworking III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Welding Technology I	**WELDING TECH I**	**1**	**L1**	**48.0508**

Prerequisite: None

This course will introduce the student to the concepts and practices in welding while allowing the more ambitious student to gain occupational training experience necessary to participate in the American Welding Society Certification test. This course is intended to provide students with the basic knowledge, skills, and theory in the characteristics of metals, their structure and properties, and welding technologies. Students will gain an understanding of welding equipment, tools, safety procedures, machine operation, and industrial applications, and provide them with entry-level skills for employment.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Welding Technology II	**WELDING TECH II**	**1**	**L2**	**48.0508**

Prerequisite: Welding Technology I

This course is a continuation of Welding I. This course provides intermediate welding students the ability to augment and further their skills and knowledge levels. Areas of study will include advanced layout and fabrication methodologies, gas tungsten arc welding of aluminum, stainless steel and TIG spot welding, welding metallurgy, and electric theory. All student activities are designed to enhance students' skill levels toward achievement of American Welding Society certification and/or American Society of Mechanical Engineering welding certification. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Welding Technology II LAB	**WELDING TECH II L**	**1**	**L2L**	**48.0508**

Prerequisite: Concurrent enrollment in Welding Technology II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Welding Technology III	**WELDING TECH III**	**1**	**L3C**	**48.0508**

Prerequisite: Welding Technology II

This course is a continuation of Welding II. This course provides advanced welding students the ability to augment and further their skills and knowledge levels. All student activities are designed to prepare the students' skill levels to achieve the American Welding Society certification and/or American Society of Mechanical Engineering welding certification. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Welding Technology III LAB	**WELDING TECH III L**	**1**	**L3L**	**48.0508**

Prerequisite: Concurrent enrollment in Welding Technology III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Welding Technology Advanced Studies	**WELDING TECH AS**	**1**	**AS**	**48.0508**

Prerequisite: Welding III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Manufacturing	**WORK EXPER MANUF**	**1**	**WK**	**99.0013**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

SCIENCE, TECHNOLOGY, ENGINEERING & MATHEMATICS

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Energy Technologies I	**ENERGY TECH I**	**1**	**L1**	**15.0503**

Prerequisite: None

This course introduces students to the power industry. Students will gain an understanding of safety procedures, equipment, tools, basic electricity principles, and the various energy sources. Students will also explore environmental impacts and availability of energy resources. Students will be introduced to career opportunities and necessary job skills.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Energy Technologies II	**ENERGY TECH II**	**1**	**L2**	**15.0503**

Prerequisite: Energy Technologies I

This course is a continuation of Energy Technologies I. This course provides intermediate energy technologies students with instruction in energy forms, energy principles, efficiency concepts, building systems, and policies. Students will engage in the use and development of energy conversion systems. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Energy Technologies III	**ENERGY TECH III**	**1**	**L3C**	**15.0503**

Prerequisite: Energy Technologies II

This course is a continuation of Energy Technologies II. This course provides advanced energy technologies students with instruction in advanced techniques and processes. Areas of emphasis include solar energy, wind energy, and geothermal energy resources. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Energy Technologies Advanced Studies	**ENERGY TECH AS**	**1**	**AS**	**15.0503**

Prerequisite: Energy Technologies III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
PLTW-Aerospace Engineering	**PLTW AEROSPACE ENG**	**1**	**L3C**	**14.0201**

Prerequisite: PLTW-Principles of Engineering

Schools must be affiliated with the Project Lead The Way™ program to offer this course

This course is a continuation of the Project Lead the Way™ Pathway to Engineering curriculum. This course explores the evolution of flight, navigation and control, flight fundamentals, aerospace materials, propulsion, space travel, and orbital mechanics. In addition, this course presents alternative applications for aerospace engineering concepts. Students analyze, design, and build aerospace systems. They apply knowledge gained throughout the course in a final presentation about the future of the industry and their professional goals.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
PLTW-Biotechnical Engineering	**PLTW BIOTECH ENG**	**1**	**L3C**	**14.0501**

Prerequisite: PLTW-Principles of Engineering

Schools must be affiliated with the Project Lead The Way™ program to offer this course*

This course is a continuation of the Project Lead the Way™ Pathway to Engineering curriculum. In this course students explore the diverse fields of biotechnology. Hands-on projects engage students in engineering design problems related to biomechanics, cardiovascular engineering, genetic engineering, tissue engineering, biomedical devices, forensics and bioethics. Students, usually at the 11th and 12th grade level, apply biological and engineering concepts to design materials and processes that directly measure, repair, improve and extend living systems.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
PLTW-Civil Engineering and Architecture	**PLTW CIVIL ENG**	**1**	**L3C**	**14.0401**

Prerequisite: PLTW-Principles of Engineering

Schools must be affiliated with the Project Lead The Way™ program to offer this course*

This course is a continuation of the Project Lead the Way™ Pathway to Engineering curriculum. Students learn about various aspects of civil engineering and architecture and apply their knowledge to the design and development of residential and commercial properties and structures. In addition, students use 3D design software to design and document solutions for major course projects. Students communicate and present solutions to their peers and members of a professional community of engineers and architects.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
PLTW-Computer Integrated Manufacturing	**PLTW COMP INT MFG**	**1**	**L3C**	**14.1901**

Prerequisite: PLTW-Principles of Engineering

Schools must be affiliated with the Project Lead The Way™ program to offer this course*

This course is a continuation of the Project Lead the Way™ Pathway to Engineering curriculum. Students answer the questions: How are things made? What processes go into creating products? Is the process for making a water bottle the same as it is for a musical instrument? How do assembly lines work? How has automation changed the face of manufacturing? While students discover the answers to these questions, they're learning about the history of manufacturing, robotics and automation, manufacturing processes, computer modeling, manufacturing equipment, and flexible manufacturing systems

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
PLTW-Digital Electronics	**PLTW DIG ELEC**	**1**	**L3C**	**15.0303**

Prerequisite: PLTW-Principles of Engineering

Schools must be affiliated with the Project Lead The Way™ program to offer this course*

This course is a continuation of the Project Lead the Way™ Pathway to Engineering curriculum. Digital electronics is the foundation of all modern electronic devices such as mobile phones, MP3 players, laptop computers, digital cameras and high-definition televisions. Students are introduced to the process of combinational and sequential logic design, engineering standards and technical documentation.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
PLTW-Engineering Design and Development	**PLTW ENG DESG DEV**	**1**	**AS**	**14.0101**

Prerequisite: PLTW-Aerospace Engineering or PLTW-Biotechnical Engineering or PLTW-Civil Engineering and Architecture or PLTW-Computer Integrated Manufacturing or PLTW-Digital Electronics

Schools must be affiliated with the Project Lead The Way™ program to offer this course*

This course is the capstone course of the Project Lead the Way™ Pathway to Engineering curriculum. In this capstone course, students work in teams to design and develop an original solution to a valid open-ended technical problem by applying the engineering design process. Students perform research to choose, validate, and justify a technical problem. After carefully defining the problem, teams design, build, and test their solutions while working closely with industry professionals who provide mentoring opportunities. Finally, student teams present and defend their original solution to an outside panel. Upon successful completion of this program, students will be prepared for entry into an Engineering program at the college level.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
PLTW-Introduction to Engineering Design	**PLTW ENG DESG**	**1**	**L1**	**14.0101**

Prerequisite: None

Schools must be affiliated with the Project Lead The Way™ program to offer this course*

This course is the entry-level course of the Project Lead the Way™ Pathway to Engineering curriculum. The major focus of IED is the design process and its application. Through hands-on projects, students apply engineering standards and document their work. Students use industry standard 3D modeling software to help them design solutions to solve proposed problems, document their work using an engineer's notebook, and communicate solutions to peers and members of the professional community.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
PLTW-Principles of Engineering	**PLTW PRIN ENG**	**1**	**L2**	**14.0101**

Prerequisite: PLTW-Introduction to Engineering Design

Schools must be affiliated with the Project Lead The Way™ program to offer this course*

This course is a continuation of the Project Lead the Way™ Pathway to Engineering curriculum. This survey course exposes students to major concepts they'll encounter in a post-secondary engineering course of study. Topics include mechanisms, energy, statics, materials, and kinematics. They develop problem-solving skills and apply their knowledge of research and design to create solutions to various challenges, document their work and communicate solutions.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Science Technology Engineering Mathematics	**WORK EXPER STEM**	**1**	**WK**	**99.0015**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.

TRANSPORTATION, DISTRIBUTION & LOGISTICS

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Aircraft Systems and Structures	**AIRCRAFT STRUCT**	**1**	**L2**	**49.0101**

Prerequisite: Fundamentals of Aerospace and Aviation

This course is designed to give the student an in depth knowledge about the systems and structures found in today's aircraft. The student becomes familiar with aircraft structural materials, coverings, electrical systems, hydraulic systems, computer systems, environmental systems, safety equipment, control surfaces, power plants, and avionics systems. Though the knowledge gained in studying aircraft systems and structures, the student learns the fundamentals to maintain and safely operate an aircraft. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology I	**AUTO TECH I**	**1**	**L1**	**47.0600**

Prerequisite: None

This course will introduce students to the operational and scientific nature of the automotive component systems including fuel, intake, exhaust, ignition, lubrication, braking, cooling, and suspension systems. Practical application of safe work habits and the correct use of tools and precision test instruments will be emphasized throughout the course

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology II	**AUTO TECH II**	**1**	**L2**	**47.0600**

Prerequisite: Automotive Technology I

This course is a continuation of Automotive Service Technology I. This course provides intermediate automotive technology students with laboratory activities including tasks with advanced equipment to diagnose and service modern automotive systems. This course focuses on safety, engine repair, automatic transmission, manual transmission, manual drive train, drive axles, clutch systems, suspension and steering, heating and air conditioning, engine performance, braking systems, and basic electrical systems. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology II LAB	**AUTO TECH II L**	**1**	**L2L**	**47.0600**

Prerequisite: Concurrent enrollment in Automotive Technology II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology III	**AUTO TECH III**	**1**	**L3C**	**47.0600**

Prerequisite: Automotive Technology II

This course is a continuation of Automotive Service Technology II. This course provides advanced automotive technology students with in-depth study and skill development in the repair of automotive engines, engine performance, machine operations, steering and suspension service, drive train service, and air conditioning system service. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology III LAB	**AUTO TECH III L**	**1**	**L3L**	**47.0600**

Prerequisite: Concurrent enrollment in Automotive Technology III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology Advanced Studies	**AUTO TECH AS**	**1**	**AS**	**47.0600**

Prerequisite: Automotive Technology III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology I AYES	**AUTO AYES I**	**1**	**L1**	**47.0604**

Prerequisite: None

This course will introduce students to the operational and scientific nature of the automotive component systems including fuel, intake, exhaust, ignition, lubrication, braking, cooling, and suspension systems. Practical application of safe work habits and the correct use of tools and precision test instruments will be emphasized throughout the course. Students will utilize the AYES school to career activities, curriculum, and processes. The program must be certified and follow the national program standards and requirements of AYES (Automotive Youth Education Systems).

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology II AYES	**AUTO AYES II**	**1**	**L2**	**47.0604**

Prerequisite: Automotive Technology I AYES

This course is a continuation of Automotive Service Technology I AYES. This course provides intermediate automotive technology students with laboratory activities, including tasks with advanced equipment, to diagnose and service modern automotive systems. This course focuses on safety, engine repair, automatic transmission, manual transmission, manual drive train, drive axles, clutch systems, suspension and steering, heating and air conditioning, engine performance, braking systems, basic electrical systems, and employability skills. Students will utilize the AYES school to career activities, curriculum, and processes. The program must be certified and follow the national program standards and requirements of AYES (Automotive Youth Education Systems). The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology II AYES LAB	**AUTO AYES II L**	**1**	**L2L**	**47.0604**

Prerequisite: Concurrent enrollment in Automotive Technology II AYES

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology III AYES	**AUTO AYES III**	**1**	**L3**	**47.0604**

Prerequisite: Automotive Technology II AYES

This course is a continuation of Automotive Service Technology II AYES. This course provides advanced automotive technology students with in-depth study and skill development in the repair of automotive engines, engine performance, machine operations, steering and suspension service, drive train service, and air conditioning system service. Students will utilize the AYES school to career activities, curriculum, and processes. The program must be certified and follow the national program standards and requirements of AYES (Automotive Youth Education Systems). The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment in this field.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology III AYES LAB	**AUTO AYES III L**	**1**	**L3L**	**47.0604**

Prerequisite: Concurrent enrollment in Automotive Technology III AYES

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology IV AYES	**AUTO AYES IV**	**1**	**L4C**	**47.0604**

Prerequisite: Automotive Technology III AYES

This course is a continuation of Automotive Service Technology III AYES. This course provides advanced automotive technology students with in-depth study and skill development in the repair of automotive engines, engine performance, machine operations, steering and suspension service, drive train service, and air conditioning system service. Students will utilize the AYES school to career activities, curriculum, and processes. The program must be certified and follow the national program standards and requirements of AYES (Automotive Youth Education Systems). The appropriate use of technology and industry-standard equipment is an integral part of this course. An internship may be incorporated into the course of study to assist students in making a transition from school to work. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Automotive Technology IV AYES LAB	**AUTO AYES IV L**	**1**	**L4L**	**47.0604**

Prerequisite: Concurrent enrollment in Automotive Technology IV AYES

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Aviation Maintenance Technician I	**AVIATION TECH I**	**1**	**L3**	**47.0607**

Prerequisite: Aircraft Systems and Structures

This course will introduce students to the operational and scientific nature of the aviation maintenance industry. This course will introduce students to safe working habits, components of a reciprocating engine, aircraft control systems, and avionics systems. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Aviation Maintenance Technician II	**AVIATION TECH II**	**1**	**L4C**	**47.0608**

Prerequisite: Aviation Maintenance Technician I

This course is a continuation of Aircraft Maintenance Technician I. This course provides advanced aircraft maintenance students with instruction in advanced techniques and processes. The students will continue to develop all skills learned in Aircraft Maintenance Technician I. Areas of study include aircraft service requirements, ground operation procedures, and calculating the cost associated with aircraft preventive maintenance. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Collision Repair Technology I	**COLL REPAIR I**	**1**	**L1**	**47.0603**

Prerequisite: None

This course provides entry-level collision repair students with an orientation to collision repair and refinishing. Students will develop their skills through industry standard tools and equipment. Areas of emphasis include safety, surface preparation, dent repair, and top coat application.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Collision Repair Technology II	**COLL REPAIR II**	**1**	**L2**	**47.0603**

Prerequisite: Collision Repair Technology I

This course is a continuation of Collision Repair Technology I. This course provides intermediate collision repair students with instruction in metal repair, painting techniques, and the application of paint systems. Areas of emphasis include inspection, estimating, adhesives, paint mixing, defects, and customer relations. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Collision Repair Technology II LAB	**COLL REPAIR II L**	**1**	**L2L**	**47.0603**

Prerequisite: Concurrent enrollment in Collision Repair Technology II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Collision Repair Technology III	**COLL REPAIR III**	**1**	**L3C**	**47.0603**

Prerequisite: Collision Repair Technology II

This course is a continuation of Collision Repair Technology II. This course provides advanced collision repair students with instruction in advanced techniques and processes. The students will continue to develop all skills learned in Collision Repair Technology I and II. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Collision Repair Technology III LAB	**COLL REPAIR III L**	**1**	**L3L**	**47.0603**

Prerequisite: Concurrent enrollment in Collision Repair Technology III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Collision Repair Technology Advanced Studies	**COLL REPAIR AS**	**1**	**AS**	**47.0603**

Prerequisite: Collision Repair Technology III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Diesel Technology I	**DIESEL TECH I**	**1**	**L1**	**47.0605**

Prerequisite: None

This course provides students with fundamental diesel engine repair and service skills. It will introduce the operational and scientific nature of diesel component systems. It will provide students with a basic knowledge of diesel engine equipment and operating principles. The diesel repair, maintenance, and diagnostic procedures will enhance students' awareness of the applications of scientific principles. The students will study the technological nature of diesel-powered equipment, which will include an understanding of the following areas: measurement, atomic structure and properties, chemical reactions, and electronic principles. The proper and safe use of tools and precision test equipment will be emphasized throughout the course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Diesel Technology II	**DIESEL TECH II**	**1**	**L2**	**47.0605**

Prerequisite: Diesel Technology I

This course is a continuation of Diesel Technology I. This course is designed to provide intermediate students with diesel-powered equipment repair and service skills. It will provide students with in-depth knowledge of diesel engine operating principles and the application of diesel power to commercial trucks, buses, and off-road equipment. Practical application of safe work habits and the correct use of tools, shop equipment, and precision test instruments will be emphasized throughout the course. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Diesel Technology II LAB	**DIESEL TECH II L**	**1**	**L2L**	**47.0605**

Prerequisite: Concurrent enrollment in Diesel Technology II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Diesel Technology III	**DIESEL TECH III**	**1**	**L3C**	**47.0605**

Prerequisite: Diesel Technology II

This course is a continuation of Diesel Technology II. This course is designed to provide advanced students with diesel-powered equipment repair and service skills. It will provide students with in-depth knowledge of diesel engine operating principles and the application of diesel power to commercial trucks, buses, and off-road equipment. Practical application of safe work habits and the correct use of tools, shop equipment, and precision test instruments will be emphasized throughout the course. The appropriate use of technology and industry-standard equipment is an integral part of this course. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Diesel Technology III LAB	**DIESEL TECH III L**	**1**	**L3L**	**47.0605**

Prerequisite: Concurrent enrollment in Diesel Technology III

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Diesel Technology Advanced Studies	**DIESEL TECH AS**	**1**	**AS**	**47.0605**

Prerequisite: Diesel Technology III

This course is offered to students who have achieved all content standards in a program whose desire is to pursue advanced study through investigation and in-depth research. Students are expected to work independently or in a team and consult with their supervising teacher for guidance. The supervising teacher will give directions, monitor, and evaluate the students' topic of study. Coursework may include various work-based learning experiences such as internships and job shadowing, involvement in a school-based enterprise, completion of a capstone project, and/or portfolio development. This course may be repeated for additional instruction and credit.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Fundamentals of Aerospace and Aviation	**FUND AEROSPACE**	**1**	**L1**	**49.0199**

Prerequisite: None

This course will introduce students to the aerospace and aviation professions. Students will learn the history of flight, developmental trends, the principles of flight and navigation, the flight environment of an aerospace vehicle, the missions and roles of today's aerospace vehicles, the fundamentals of rocketry and space travel, and the physiology of flight.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Pilot I	**PILOT I**	**1**	**L3C**	**49.0102**

Prerequisite: Aircraft Systems and Structures

This course is a continuation of Aircraft Systems and Structures. This course provides intermediate aviation students with instruction in advanced techniques and processes. This course introduces student on the principles of flight, the aircraft flight environment, aircraft performance standards, flight controls, metrology, radio communications, flight planning, FAA regulations, navigation, the human body in flight, airman decisions making, accident prevention, Airman Information Manual, and the fundamentals of instrument flight. This course prepares the students to take the FAA Part 61.109 Private Pilot Written Exam. Upon successful completion of this course, students will have acquired entry-level skills for employment and be prepared for postsecondary education.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Pilot II	**PILOT II**	**1**	**AS**	**49.0102**

Prerequisite: Pilot I

This course is a continuation of Private Pilot I. This course provides advanced aviation students with instruction in advanced techniques and processes. This course is designed to prepare students to successfully meet the FAA requirements for a Private Pilot License. The course provides the classroom instruction, simulators training, and flight training for private pilot evaluation and certification in a single engine airplane in accordance with FAA FAR part 61.109 and the FAA Practical Test Standards.

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Pilot II LAB	**PILOT II L**	**1**	**AS**	**49.0102**

Prerequisite: Concurrent enrollment in Pilot II

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth lab experience that applies the processes, concepts, and principles as described in the classroom instruction. The coursework will encourage students to explore and develop advanced skills in their program area. The appropriate use of technology and industry-standard equipment is an integral part of this course.

WORK EXPERIENCE:

COURSE TITLE	ABBREVIATED NAME	CREDITS	LEVEL	CIP CODE
Work Experience – Transportation Distribution and Logistics	**WORK EXPER TRANS**	**1**	**WK**	**99.0016**

Prerequisite: None

This course is designed to expand the students' opportunities for applied learning. This course provides an in-depth work experience that applies the processes, concepts, and principles as described in the classroom instruction. This course will encourage students to explore and develop advanced skills through work-based learning directly related to the program of study. The course must follow NAC 389.562, 389.564, 389.566 regulations.
